What does the fund invest in?

The fund's investment objective is to seek long-term capital appreciation with low volatility by investing primarily in a diversified portfolio of equity securities of issuers outside Canada and the United States or indirectly by investing in mutual funds (including exchange-traded funds) that primarily invest in such securities. The fund may invest in companies it believes to have above average earnings growth potential (growth companies), in stocks of companies it believes are undervalued (value companies), or in a combination of growth and value companies. The fund may invest in companies of any size around the world including emerging markets and may invest up to 100% of the fund's assets in foreign securities.

How risky is it?

The value of the fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

SLGI Asset Management Inc. has rated the volatility of this fund as **Low to medium**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the general risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund does not have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Series I securities of the fund have performed over the past 9 calendar years. Returns are after expenses have been deducted. These expenses reduce the series' returns.

Year-by-year returns

This chart shows how Series I securities of the fund have performed in each of the past 9 calendar years. The series dropped in value in 1 of the 9 years shown. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

Best and worst 3-month returns

This table shows the best and worst returns for Series I securities of the fund in a 3-month period over the past 9 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invest \$1,000 at the beginning of the period
Best return	13.3%	May 31, 2017	Your investment would rise to \$1,133
Worst return	-9.8%	March 31, 2020	Your investment would drop to \$902

Average return

As at April 17, 2026, a person who invested \$1,000 in Series I securities of the fund 10 years ago has \$2,403. This works out to an annual compound return of 9.2%.

Who is this fund for?
Investors who:

- Seek to add international geographic diversification with less volatility compared to the Fund's benchmark (the MSCI EAFE Index C\$).
- Are long-term investors.
- Are comfortable with low to medium investment risk.

Do not invest in this fund unless you are willing to accept the potential loss of a portion of your investment or if you have a short-term investment horizon.

A word about tax

In general, you will have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan, such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series I securities of the fund.

The fees and expenses - including any commissions - can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other series, funds and investments that may be suitable for you at a lower cost.

1. Sales charges

There are no sales charges payable to your representative's firm for this series.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the fund's returns.

As of December 31, 2025, the series' expenses were 0.26% of its value. This equals approximately \$3 for every \$1,000 invested.
