How risky is it?

The value of the fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

SLGI Asset Management Inc. has rated the volatility of this fund as **Low**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the general risks of investing in a mutual fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund does not have any guarantees. You may not get back the amount of money you invest.

Who is this fund for?
Investors who:

- Seek to add exposure to a portfolio of global debt securities.
- Seek capital appreciation and income.
- Are comfortable with low investment risk.
- Are medium-to long-term investors.

Do not invest in this fund unless you are willing to accept the potential loss of a portion of your investment or if you have a short-term investment horizon.

A word about tax

In general, you will have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan, such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series A securities of the fund.

The fees and expenses - including any commissions - can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other series, funds and investments that may be suitable for you at a lower cost.

1. Sales charges

Deferred Sales Charge option is no longer available for purchase on all Series of securities. Switching from securities of a Fund previously purchased under the Deferred Sales Charge option to securities of another Fund, under the same purchase option, will continue to be permitted.

Sales charge option	What you pay		How it works
	in percent (%)	in dollars (\$)	
Front end sales charge	0.0% to 5.0% of the purchase price of the securities you buy	You will pay a fee of \$0-\$50 on every \$1,000 you invest.	<ul style="list-style-type: none"> You and your representative negotiate the fee, which may be up to 5.0% of the cost of the securities, and you pay this fee to your representative's firm when you buy the securities.

This deferred sales charge is a set rate. It is deducted from the amount you redeem and paid to SLGI Asset Management Inc. Each year you can redeem up to 10.0% of the securities you held on December 31 of the previous year plus up to 10.0% of the securities you bought during the current year, at no charge. You may pay a sales charge if you switch securities purchased under the deferred sales charge option to the front end sales charge option, and / or your representative's firm may charge you a switch fee.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the fund's returns.

More about the trailing commission

The trailing commission is an ongoing commission. It is paid for as long as you own securities of the fund. It is for the services and/or advice that your representative and/or their firm provide to you.

SLGI Asset Management Inc. pays the trailing commission to your representative's firm. It is paid from the fund's management fee and is based on the value of your investment. The rate depends on the sales charge option you choose.

- **Front end sales charge:** 0.5% of the value of your investment each year. This equals \$5.00 each year for every \$1,000 invested.
- **Deferred sales charge:** 0.25% of the value of your investment each year. This equals \$2.50 each year for every \$1,000 invested.

Short-term or excessive trading fee	If you redeem or switch securities of the fund within 30 days of purchase, SLGI Asset Management Inc. may charge a short-term or excessive trading fee on behalf of the fund of 2.0% of the value of the securities redeemed or switched.
