How risky is it?

The value of the fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

SLGI Asset Management Inc. has rated the volatility of this fund as **Low to medium**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the general risks of investing in a mutual fund?" section of the fund's simplified prospectus.

GUARANTEES

SLGI Asset Management Inc. has structured this fund to provide for a Guaranteed Value per security on June 30, 2030, the fund's Maturity Date. The Guaranteed Value is equal to the greatest of the following three values: (i) \$10.00 per security, (ii) the highest month-end net asset value (NAV) per security during the period from the start date until the scheduled Maturity Date or (iii) the NAV per security on the scheduled Maturity Date. If, on the Maturity Date, the NAV per security does not equal the Guaranteed Value, Sun Life Assurance Company of Canada will pay the shortfall to the fund. The Guaranteed Value does not apply to any securities that are redeemed before the Maturity Date of the fund. Redemptions prior to the fund's Maturity Date will be based on the NAV of the mutual fund at the time of the redemption (less any applicable fees). Please see the fund's simplified prospectus for more information.

A word about tax

In general, you will have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan, such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?
