MANAGEMENT DISCUSSION OF FUND PERFORMANCE

Investment Objectives and Strategies

The fundamental investment objectives of the Sun Life Franklin Bissett Canadian Equity Class (the "Fund") are to seek to achieve long-term capital appreciation primarily by investing directly in a diversified portfolio of mid to large capitalization Canadian equities or indirectly by investing in mutual funds (including exchange-traded funds) that invest in such securities.

The Fund's Sub-Advisor is Franklin Bissett Investment Management (the "Sub-Advisor"). The Sub-Advisor currently intends to achieve the Fund's investment objectives by investing all, or substantially all, of the assets of the Fund in units of Franklin Bissett Canadian Equity Fund (the "underlying Fund"), a mutual fund that is managed and advised by the Sub-Advisor. In pursuing the underlying Fund's investment objectives, the Sub-Advisor uses a bottom-up investment approach that favours businesses with experienced management, effective capital allocation, financial strength and durable business models. The Sub-Advisor primarily invests in Canadian equity securities of high quality growth oriented entities.

Risk

There were no changes in the Fund's investment objectives or strategies during the period which materially impacted the overall level of risk in the Fund. The risks associated with investing in the Fund remain as outlined in the Fund's Simplified Prospectus.

Results of Operations

During the period, the net asset value of the Fund increased from \$8.3 million to \$11.2 million due to positive net sales, as well as positive performance.

During the period, the Fund returned 18.6% for Series A shares, this result lagged the Fund's benchmark, which returned 22.9%. The performance returns for other series of this Fund are similar to those of Series A except for differences in expense structures. Please refer to the 'Past Performance' section of this report for performance of each series and a definition of the benchmark and broad-based index if applicable.

The Fund currently invests substantially all of its holdings in units of the Franklin Bissett Canadian Equity Fund (the "underlying Trust Fund"). The following commentary relates to the underlying Fund. Relative to the benchmark, the underlying Fund is most notably overweight the Consumer Staples, Industrials and Financials sectors and underweight the Materials and Energy sectors.

Security selection was negatively impacted by individual holdings in the Information Technology sector, partially offset by individual holdings in the Consumer Discretionary and Financials sectors. From a sector allocation standpoint, the most notable positive contributor to performance was the underlying Trust Fund's lack of exposure to the underperforming Health Care sector, offset by being overweight in the underperforming Consumer Staples sector.

Recent Developments

Sun Life Global Investments (Canada) Inc. (the "Manager") announced on November 29, 2019 that it intended to separate Series O securities from the Sun Life Global Investments Private Client Program for all the mutual funds that it manages. Subsequent to the reporting period, the Manager implemented this change to the Private Client Program on February 26, 2020.

On February 19, 2020, the Manager announced a proposed merger of the Fund into the Sun Life MFS Canadian Equity Fund (formerly, Sun Life MFS Canadian Equity Growth Fund). The proposal is subject to securityholder and regulatory approvals. The securityholder vote is scheduled to take place on or about May 8, 2020. All costs and expenses associated with the merger will be borne by the Manager. In anticipation of the merger, the Fund is closed to investment in new accounts, effective 4:01 p.m. ET on February 26, 2020. If approved, the merger will take effect on or about June 5, 2020.

The Index advanced in all four quarters of 2019 with a 22.9% increase for the full year. During 2019, ten out of eleven GICS sectors posted positive total returns with Health Care being the only sector to decline. Information Technology (+64.9%) was the strongest performing sector, with Utilities (+37.5%) also a standout. The worst performing sector was Health Care (-10.9%) due to acute weakness amongst several cannabis-related equities.

The Manager cautions that the current global uncertainty with respect to the spread of the coronavirus (COVID-19) and its effect on the broader global economy may have a significant impact to the volatility of the financial market. While the precise impact remains unknown, rapid spread of the virus may have a material adverse effect on global economic activity and disrupt global supply chains, operations, mobility of people, which could affect interest rates, credit ratings, credit risk, inflation, business, financial conditions, results of operations and other factors relevant to fund performance.

Related Party Transactions

Sun Life Global Investments (Canada) Inc. is the manager, and portfolio manager of the Fund.

The Manager is responsible for the provision of all general management and administrative services required by the Fund in its day-to-day operations, including providing or arranging for the provision of investment advice, bookkeeping, recordkeeping and other administrative services for the Fund.

For its services, the Manager receives a management fee that is calculated as a percentage of the average net asset value of the Fund. This fee is calculated daily and payable monthly.

The Manager has retained Franklin Bissett Investment Management, part of Franklin Templeton Investments Corp. to act as a sub-advisor for the Fund.

The Manager is an indirect wholly owned subsidiary of Sun Life Financial Inc.

Fund Administrative Expenses

The Manager pays certain operating expenses of the Fund (the "Administration Expenses") in return for a fixed administration fee paid to the Manager by the Fund ("Administration Fee"). The Administration Fee is based on the net asset value of each series of the Fund. The Administration Expenses include, but are not limited to, record keeper fees, accounting, audit and legal fees, bank and interest charges, safekeeping and custodial fees, taxes, administrative and systems costs, costs of reports to investors, prospectuses and other disclosure documents, regulatory filing fees (including those incurred by the Manager) and trustee fees for registered plans. The amount of this charge is disclosed as Fixed annual administration fees in the Fund's Statement of Comprehensive Income found in the annual financial statements.

The Fund also pays certain operating expenses directly (the "Fund Costs"). Fund Costs include: borrowing costs incurred by the Fund from time to time; costs in connection with portfolio transactions; fees and expenses payable to or in connection with the Fund's Independent Review Committee ("IRC"); taxes payable by the Fund; and the costs of complying with any new regulatory or legal requirement imposed on the Fund. The Fund allocates Fund Costs proportionately among each series of the Fund to which they apply. The Fund Costs that are specific to a series of securities are allocated to that series. These amounts are paid out of the assets attributed to each series of securities of the Fund, which reduces the return you may receive.

⁽¹⁾ This information is provided as at December 31 of the period shown, as applicable.

⁽²⁾ Management expense ratio is based on total expenses (excluding broker commissions and other portfolio transaction costs) including the Fund's allocated percentage of Fund-on-Funds' expenses for the stated period and is expressed as an annualized percentage of daily average Net Asset Value during the period.

⁽³⁾ The trading expense ratio represents total commissions and other portfolio transaction costs expressed as an annualized percentage of daily average Net Asset Value during the period.

⁽⁴⁾ The Fund's portfolio turnover ratio indicates how actively the Fund's portfolio manager manages its portfolio investments. A portfolio turnover ratio of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the year. The higher a Fund's portfolio turnover ratio in a year, the greater the trading costs payable by the Fund in the year, and the greater the chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a high portfolio turnover rate and the performance of the Fund.

Management Fees

The maximum annual management fee paid by the Fund is a percentage of the average daily net asset value of each series of securities of the Fund exclusive of any applicable taxes and operating expenses, which is accrued daily and is paid to the Manager monthly in arrears. Management fees pay for portfolio and investment advisory services, oversight of any service providers, marketing and promotional activities, arranging for the distribution and sale of securities of the Fund, general administration of Fund operations and sales and trailing commissions paid to dealers.
