MANAGEMENT DISCUSSION OF FUND PERFORMANCE

Investment Objectives and Strategies

The fundamental objectives of the Sun Life Granite Growth Class (the "Fund") are to seek capital appreciation through exposure to primarily fixed income and equity securities by investing primarily in units of Sun Life Granite Growth Portfolio or its successor fund (the "Portfolio").

In pursuing the Portfolio's investment objective, the portfolio manager typically invests between 70% and 90% of the Portfolio's assets in equity mutual funds and between 10% and 30% of the Portfolio's assets in fixed income mutual funds. The Portfolio Manager uses an asset allocation strategy to determine the balance between the portion of the Portfolio invested in equity mutual funds and the portion of the Portfolio invested in fixed income mutual funds. The equity portion of the Portfolio typically has exposure to Canadian equity securities, U.S. equity securities and international equity securities. The fixed income portion typically selects fixed income mutual funds with exposure to Canadian debt instruments and global debt instruments.

Risk

There were no changes in the Fund's investment objectives or strategies during the period which materially impacted the overall level of risk in the Fund. The risks associated with investing in the Fund remain as outlined in the Fund's Simplified Prospectus.

Results of Operations

During the period, the net asset value of the Fund increased from \$48.3 million to \$62.4 million due to positive net sales, as well as positive performance.

During the period, the Fund returned 15.7% for Series A shares, this result lagged the Fund's benchmark, which returned 18.6%. The broad-based index 1 returned 21.2% and the broad-based index 2 returned 1.4%. The performance returns for other series of this Fund are similar to those of Series A except for differences in expense structures. Please refer to the 'Past Performance' section of this report for performance of each series and a definition of the benchmark and broad-based index if applicable.

The Fund currently invests substantially all of its holdings in units of the Sun Life Granite Growth Portfolio (the "Portfolio"). The following commentary relates to the Portfolio.

Sun Life Global Investments (Canada) Inc. (the "Manager") was cautious despite the run up in markets. With the exception of maintaining a slight overweight exposure to U.S. equities, the Manager kept a lower exposure to equities versus previous periods and overweight position to fixed income versus previous periods. This negatively impacted returns as equities outperformed bonds. For defensive purposes, the Manager increased cash levels to help manage risk during the period. An underweight allocation to equities in general detracted from performance as global equity markets roared ahead. Additionally, an overweight allocation to cash detracted from the underlying Trust Fund's performance as global markets delivered good returns.

Major contributors to the underlying Trust Fund's performance for the period included being overweight U.S. equities. U.S. markets climbed to highs after the U.S. Federal Reserve ("the Fed") said it would likely cut interest rates. The underlying Trust Fund's underweight position on emerging market equities during the period also contributed positively to performance as emerging markets underperformed due to global trade tensions. The Manager reduced emerging markets equity exposure position during the second part of the period, as emerging markets were sensitive to external risk factors such as the pace of global growth, changes in U.S. monetary policy and the U.S./China trade war.

In terms of fixed income, yields on both U.S. Treasuries and Canadian bonds continued to come down. The spread between the two narrowed on the assumption that the Bank of Canada will be less likely to lower interest rates. The Manager moved from underweight U.S. bonds to overweight U.S. bonds on that basis which contributed positively to the underlying Trust Fund's performance.

Recent Developments

The Manager announced on November 29, 2019 that it intended to separate Series O securities from the Sun Life Global Investments Private Client Program for all the mutual funds that it manages. Subsequent to the reporting period, the Manager implemented this change to the Private Client Program on February 26, 2020.

Sun Life Granite Growth Class

The Canadian equity market ended the period in double-digit positive territory. The Canadian economy remained resilient despite the fact a federal election resulted in a minority Liberal government, the Bank of Canada (BoC) did not cut interest rates, and global trade tensions dominated world economies.

There were some positive developments later in the year. The U.S. and China agreed to a limited trade deal (phase one), which lowers some tariffs on China-imported goods and allows more access to U.S. farmers to sell goods in China. Also, U.K. Prime Minister Boris Johnson won a majority Conservative government that gives him a mandate to exit the European Union.

The U.S. equity market ended the year in double-digit positive territory. It was actually one of the best performing years in the past decade. Ironically, the year began with investors' concerns of a global economic slowdown resulting from the U.S.-China trade dispute and an inverted yield curve in the U.S. bond market. An inverted yield curve can sometimes be a signal of an upcoming recession.

Due to this economic uncertainty, the U.S. Federal Reserve (the "Fed") cut interest rates three times in the year. These rates cuts were looked upon as insurance cuts to keep the country's longest economic expansion running and also had a positive effect.

Fixed income markets across most geographies saw double-digit returns. What really drove returns in 2019 was capital appreciation which was driven both by interest rates moving lower and credit markets staying strong. Central banks remained largely on the sidelines and economic activity remained broadly supportive but at a lower gear relative to what the market has seen over recent years.

The Manager cautions that the current global uncertainty with respect to the spread of the coronavirus (COVID-19) and its effect on the broader global economy may have a significant impact to the volatility of the financial market. While the precise impact remains unknown, rapid spread of the virus may have a material adverse effect on global economic activity and disrupt global supply chains, operations, mobility of people, which could affect interest rates, credit ratings, credit risk, inflation, business, financial conditions, results of operations and other factors relevant to fund performance.

Related Party Transactions

Sun Life Global Investments (Canada) Inc. is the manager, and portfolio manager of the Fund.

The Manager is responsible for the provision of all general management and administrative services required by the Fund in its day-to-day operations, including providing or arranging for the provision of investment advice, bookkeeping, recordkeeping and other administrative services for the Fund.

For its services, the Manager receives a management fee that is calculated as a percentage of the average net asset value of the Fund. This fee is calculated daily and payable monthly.

As portfolio manager, the Manager is responsible for managing the investment portfolio of the Fund.

The Manager is an indirect wholly owned subsidiary of Sun Life Financial Inc.

Fund Administrative Expenses

The Manager pays certain operating expenses of the Fund (the "Administration Expenses") in return for a fixed administration fee paid to the Manager by the Fund ("Administration Fee"). The Administration Fee is based on the net asset value of each series of the Fund. The Administration Expenses include, but are not limited to, record keeper fees, accounting, audit and legal fees, bank and interest charges, safekeeping and custodial fees, taxes, administrative and systems costs, costs of reports to investors, prospectuses and other disclosure documents, regulatory filing fees (including those incurred by the Manager) and trustee fees for registered plans. The amount of this charge is disclosed as Fixed annual administration fees in the Fund's Statement of Comprehensive Income found in the annual financial statements.

The Fund also pays certain operating expenses directly (the "Fund Costs"). Fund Costs include: borrowing costs incurred by the Fund from time to time; costs in connection with portfolio transactions; fees and expenses payable to or in connection with the Fund's Independent Review Committee ("IRC"); taxes payable by the Fund; and the costs of complying with any new regulatory or legal requirement imposed on the Fund. The Fund allocates Fund Costs proportionately among each series of the Fund to which they apply. The Fund Costs that are specific to a series of securities are allocated to that series. These amounts are paid out of the assets attributed to each series of securities of the Fund, which reduces the return you may receive.

⁽¹⁾ This information is provided as at December 31 of the period shown, as applicable.

⁽²⁾ Management expense ratio is based on total expenses (excluding broker commissions and other portfolio transaction costs) including the Fund's allocated percentage of Fund-on-Funds' expenses for the stated period and is expressed as an annualized percentage of daily average Net Asset Value during the period.

⁽³⁾ The trading expense ratio represents total commissions and other portfolio transaction costs expressed as an annualized percentage of daily average Net Asset Value during the period.

⁽⁴⁾ The Fund's portfolio turnover ratio indicates how actively the Fund's portfolio manager manages its portfolio investments. A portfolio turnover ratio of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the year. The higher a Fund's portfolio turnover ratio in a year, the greater the trading costs payable by the Fund in the year, and the greater the chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a high portfolio turnover rate and the performance of the Fund.

Management Fees

The maximum annual management fee paid by the Fund is a percentage of the average daily net asset value of each series of securities of the Fund exclusive of any applicable taxes and operating expenses, which is accrued daily and is paid to the Manager monthly in arrears. Management fees pay for portfolio and investment advisory services, oversight of any service providers, marketing and promotional activities, arranging for the distribution and sale of securities of the Fund, general administration of Fund operations and sales and trailing commissions paid to dealers.

The percentages and major services paid for out of the management fees are set out below:

	Maximum Annual Management Fee Rate (%)	As a Percentage of Management Fees	
		Dealer Compensation (%) ⁽¹⁾	General Administration, Investment Advice and Profit (%)
Series A Shares	1.90	49	51
Series AT5 Shares	1.90	49	51
Series AT8 Shares	1.90	42	58
Series F Shares	0.90	–	100
Series FT5 Shares	0.90	–	100
Series FT8 Shares	0.90	–	100
Series O Shares ⁽¹⁾	0.90	–	–

⁽¹⁾ Includes sales and trailing commissions.

⁽¹⁾ Series O management fees are not paid by the Fund. Series O investors pay management fees directly to the manager.

Past Performance

The performance information shown assumes that all distributions made by the Fund in the periods shown were reinvested in additional securities of the Fund. The performance information does not take into account sales, redemption, distribution, other optional charges or income tax payable by any shareholder that would have reduced returns or performance. How the Fund has performed in the past does not necessarily indicate how it will perform in the future.

Year-by-Year Returns

The following bar chart shows the Fund's annual performance for the period shown. The chart shows, in percentage terms, how much an investment made on the first day of each financial year would have grown or decreased by the last day of each financial year.

INDEX DESCRIPTION(S)

The S&P/TSX Capped Composite Index imposes capped weights of 10% on all of the constituents included in the S&P/TSX Composite. The S&P/TSX Composite covers approximately 95% of the Canadian equities market, and has been the primary gauge for Canadian-based, Toronto Stock Exchange-listed companies since 1977.

The MSCI World Index is a free float adjusted market capitalization index that is designed to measure global developed market equity performance.

The FTSE Canada Universe Bond Index is a market capitalization weighted index composed of investment grade, fixed coupon, government and corporate bonds, issued in Canada and denominated in Canadian dollars, with a remaining term to maturity of at least one year.

The FTSE Canada 91 Day T-Bill Index measures the performance of the 91 day Treasury Bill market.

The J.P. Morgan Government Bond Index Global (GBI Global) is a market capitalization weighted bond index representative of the fixed-rate government securities across 13 developed government bond markets. The index notably excludes bonds with less than one year to maturity, floating rate notes and perpetuals. This index is hedged to the Canadian dollar.

The Bloomberg Barclays Global Aggregate Bond Index measures the performance of the global investment-grade fixed-rate debt markets. It is composed of government, government-related and corporate bonds, as well as asset-backed, mortgage-backed and commercial mortgage-backed securities from both developed and emerging markets issuers.

Forward-Looking Statements

This management report of fund performance may contain forward-looking statements about the Fund, including its strategy, results of operations, performance and condition. Forward-looking statements include statements that are predictive in nature, or that depend upon or refer to future events or conditions. They are based on current beliefs, expectations and projections about future events and are inherently subject to, among other things, risks, uncertainties and assumptions about the Fund and various economic factors. Many factors could cause the Fund's actual results, performance or achievements to be materially different from any future results, performance or achievements that may be expressed or implied by such forward-looking statements. These factors could include, among other things, general economic, political and market factors, including interest and foreign exchange rates, business competition, technological changes, changes in government regulations or in tax laws. Although the forward-looking statements contained in this report are based upon what management currently believes to be reasonable assumptions, the Manager cannot assure current or prospective investors that actual results, performance or achievements will be consistent with these forward-looking statements. The words "may", "could", "would", "should", "believe", "plan", "anticipate", "expect", "intend", "forecast", "objective", and similar expressions are intended to identify forward-looking statements. The Manager does not undertake any obligation to update or revise any forward-looking statements to reflect events or circumstances after the date of this document or to reflect new information or the occurrence of unanticipated events, except as required by law.
