
SUN LIFE GLOBAL INVESTMENTS (CANADA) INC.

ANNUAL MANAGEMENT REPORT OF FUND PERFORMANCE

for the financial year ended December 31, 2019

Sun Life MFS Canadian Equity Growth Fund

Sun Life MFS Canadian Equity Growth Fund

This annual management report of fund performance contains financial highlights but does not contain the complete financial statements of the investment fund. You can request a free copy of the annual financial statements by calling 1-877-344-1434, by sending an email to us at info@sunlifeglobalinvestments.com or by writing to us at Sun Life Global Investments (Canada) Inc., 1 York Street, Suite 3300, Toronto, Ontario, M5J 0B6. Our financial statements are available on our website at www.sunlifeglobalinvestments.com and on SEDAR at www.sedar.com.

Unitholders may also contact us using one of these methods to request a copy of the investment fund's proxy voting policies and procedures, proxy voting disclosure record or quarterly portfolio disclosure.

MANAGEMENT DISCUSSION OF FUND PERFORMANCE

Investment Objectives and Strategies

The fundamental investment objectives of the Sun Life MFS Canadian Equity Growth Fund (the "Fund") are to aim for long-term capital growth primarily by investing in Canadian growth equity securities. The Fund may invest in global equity securities or other mutual funds.

The Fund's Sub-Advisor is MFS Investment Management Canada Limited ("MFSIM") and the Sub-Advisor to MFSIM is MFS Institutional Advisors, Inc. ("MFS"). In pursuing the Fund's investment objective, MFSIM seeks to invest in equity securities of companies it believes to have above-average earnings growth potential compared to other companies. The Fund may invest in companies of any size with issuers located primarily in Canada. The Fund may also invest up to 40% of the Fund's assets in non-Canadian securities. Using a bottom-up investment approach – investments are selected primarily based on fundamental analysis of issuers and their potential in light of their current financial condition and industry position, as well as market, economic, political and regulatory conditions; considers factors such as earnings, cash flows, competitive position and management ability of issuers.

Risk

There were no changes in the Fund's investment objectives or strategies during the period which materially impacted the overall level of risk in the Fund. The risks associated with investing in the Fund remain as outlined in the Fund's Simplified Prospectus.

Results of Operations

During the period, the net asset value of the Fund increased from \$373.9 million to \$460.9 million due to positive net sales, as well as positive performance.

During the period, the Fund returned 20.2% for Series A units, this result lagged the Fund's benchmark, which returned 22.5%. The broad-based index 1 returned 22.9% and the broad-based index 2 returned 21.2%. The performance returns for other series of this Fund are similar to those of Series A except for differences in expense structures. Please refer to the 'Past Performance' section of this report for performance of each series and a definition of the benchmark and broad-based index if applicable.

An underweight allocation to Utilities detracted from performance as the sector benefited from declining interest rates with every stock in the sector recording a yearly gain. Stock selection in the Information Technology sector was also a detractor for the portfolio. Within this sector, the Fund's timing of ownership in shares of cloud-based e-commerce platform operator Shopify and an underweight position in Apple, a computer and personal electronics maker, weighed on performance. Apple share prices gained more than 100% in 2019. An overweight allocation and to a lesser extent, stock selection in the Consumer Staples sector weighed on performance as the sector underperformed the benchmark significantly.

The portfolio's cash and/or cash equivalents position during the period was also a detractor from relative performance. Under normal market conditions, the fund strives to be fully invested and generally holds cash to buy new holdings and to provide liquidity. In a period when equity markets appreciated as measured by the fund's benchmark, holding cash hurt performance versus the benchmark, which has no cash position.

Stock selection in the Energy sector contributed to performance, led by the fund's overweight position in energy pipeline and infrastructure services provider TC Energy. Declining interest rates caused investors to seek higher yields in the pipeline space during the period. Stock selection and to a lesser extent, an underweight position in the Health Care sector contributed to performance, as the Canadian Cannabis industry has been struggling to translate sales growth into profitability. The portfolio did not own any cannabis stocks during the period.

TMX Group Limited, a securities exchange, financial markets clearing and data services firm, contributed to relative returns. The stock advanced as the company reported better-than-expected results. Additionally, enterprise software solutions provider Constellation Software delivered stronger-than-expected results and continued to grow through acquisitions.

Sun Life MFS Canadian Equity Growth Fund

Recent Developments

The Manager announced on November 29, 2019 that it intended to separate Series O securities from the Sun Life Global Investments Private Client Program for all the mutual funds that it manages. Subsequent to the reporting period, the Manager implemented this change to the Private Client Program on February 26, 2020.

Subsequent to the reporting period, on February 19, 2020, the Manager announced that the Fund would change its name to the Sun Life MFS Canadian Equity Fund to better align the name of the Fund with its investment objective and strategies. There are no changes to the investment objectives and strategies of the Fund. The name change is effective February 26, 2020.

For the year 2019 overall, Canadian equities fared better than its global equity peers, led by technology stocks, up 65%, and by a strong lift in gold stocks (42%). This was rounded out by near-similar gains in diversified financials and insurers as well as the pipelines and utilities stocks, the latter boosted by falling interest rates in the first three quarters. It was the lowering of global central bank interest rates, aimed at arresting economic sluggishness related to geopolitical factors (trade concerns, energy supply interruptions, the China slowdown, Brexit, etc.) that drove stock market gains throughout the year.

Globally, fading fears of a near-term global recession, the announcement of a partial trade deal between the United States and China and the decline in uncertainty over Brexit helped bolster market sentiment late in the period. Changes in market sentiment, largely driven by uncertainty over the outcome of trade negotiations between the US and China, had contributed to periodic bouts of volatility during the reporting period. The global economy decelerated, led by weakness in China and Europe, although the pace of the slowdown moderated late in the period amid nascent signs of stabilization in the manufacturing sector.

The deteriorating global growth backdrop, along with declining inflationary pressures, prompted the US Federal Reserve to adopt a more dovish posture beginning in early 2019, resulting in the first interest rate cut in over a decade at the end of July, followed by additional cuts in September and October. The Fed's actions led to a sharp decline in long-term interest rates during the period's second half, causing the inversion of portions of the US Treasury yield curve for a time. Amid an improvement in risk sentiment in Q4 2019 and indications of a bottoming in growth and potential upturn in activity, the Fed indicated in October that further rate cuts were unlikely unless the outlook for the economy materially worsened.

Globally, central banks have tilted more dovish as well, with the European Central Bank unveiling a package of easing measures, which included putting overnight rates deeper into negative territory, restarting its bond-buying program and lengthening the term of cheap loans to banks to three years from two. The central banks of India and Australia are among those that have

cut rates several times in recent months, although China has been more cautious in increasing liquidity as it keeps trying to deleverage its economy, cutting rates only marginally.

Emerging markets experienced considerable volatility through the end of 2018, as tighter global financial conditions exposed structural weakness in some countries. Those conditions improved in 2019 as the Fed became more dovish.

Notwithstanding the periodic headwinds on market sentiment from significant trade friction between the US and China over much of the year, emerging market hard currency debt and local rates benefited from relatively cheap valuations at the beginning of the period and easier global monetary conditions. These factors, plus the fading of certain global risk factors mentioned above, hastened spread-tightening in the latter part of the period. At the same, idiosyncratic risks spiked in some countries (e.g., Argentina and Lebanon), contributing to increased dispersion in performance among sovereign assets.

The Manager cautions that the current global uncertainty with respect to the spread of the coronavirus (COVID-19) and its effect on the broader global economy may have a significant impact to the volatility of the financial market. While the precise impact remains unknown, rapid spread of the virus may have a material adverse effect on global economic activity and disrupt global supply chains, operations, mobility of people, which could affect interest rates, credit ratings, credit risk, inflation, business, financial conditions, results of operations and other factors relevant to fund performance.

Related Party Transactions

Sun Life Global Investments (Canada) Inc. (the "Manager") is the manager, trustee and portfolio manager of the Fund. For its services, the Manager receives a management fee that is calculated as a percentage of the average net asset value of the Fund. This fee is calculated daily and payable monthly.

The Manager is responsible for the provision of all general management and administrative services required by the Fund in its day-to-day operations, including providing or arranging for the provision of investment advice, bookkeeping, recordkeeping and other administrative services for the Fund.

As trustee, the Manager holds legal title to the Fund's investments in trust for unitholders.

As portfolio manager, the Manager is responsible for managing the investment portfolio of the Fund directly or through sub-advisors. The Manager has retained MFS Investment Management Canada Limited ("MFSIM"), an affiliate, to act as a sub-advisor for the Fund.

The Manager is an indirect wholly owned subsidiary of Sun Life Financial Inc., which also has an indirect majority ownership interest in MFSIM.

Sun Life MFS Canadian Equity Growth Fund

Fund Administrative Expenses

The Manager pays certain operating expenses of the Fund (the "Administration Expenses") in return for a fixed administration fee paid to the Manager by the Fund ("Administration Fee"). The Administration Fee is based on the net asset value of each series of the Fund. The Administration Expenses include, but are not limited to, record keeper fees, accounting, audit and legal fees, bank and interest charges, safekeeping and custodial fees, taxes, administrative and systems costs, costs of reports to investors, prospectuses and other disclosure documents, regulatory filing fees (including those incurred by the Manager) and trustee fees for registered plans. The amount of this charge is disclosed as Fixed annual administration fees in the Fund's Statement of Comprehensive Income found in the annual financial statements.

The Fund also pays certain operating expenses directly (the "Fund Costs"). Fund Costs include: borrowing costs incurred by the Fund from time to time; costs in connection with portfolio transactions; fees and expenses payable to or in connection with the Fund's Independent Review Committee ("IRC"); taxes payable by the Fund; and the costs of complying with any new regulatory or legal requirement imposed on the Fund. The Fund allocates Fund Costs proportionately among each series of the Fund to which they apply. The Fund Costs that are specific to a series of securities are allocated to that series. These amounts are paid out of the assets attributed to each series of securities of the Fund, which reduces the return you may receive.

Financial Highlights

The following tables show selected key financial information about the Fund and are intended to help you understand the Fund's financial performance for the previous five years or for the periods since inception to December 31, 2019.

The Fund's Net Asset Value per Unit (\$) ⁽¹⁾

⁽¹⁾ This information is provided as at December 31 of the period shown, as applicable.

⁽²⁾ Management expense ratio is based on total expenses (excluding broker commissions and other portfolio transaction costs) including the Fund's allocated percentage of Fund-on-Funds' expenses for the stated period and is expressed as an annualized percentage of daily average Net Asset Value during the period.

⁽³⁾ The trading expense ratio represents total commissions and other portfolio transaction costs expressed as an annualized percentage of daily average Net Asset Value during the period.

⁽⁴⁾ The Fund's portfolio turnover ratio indicates how actively the Fund's portfolio manager manages its portfolio investments. A portfolio turnover ratio of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the year. The higher a Fund's portfolio turnover ratio in a year, the greater the trading costs payable by the Fund in the year, and the greater the chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a high portfolio turnover rate and the performance of the Fund.

Management Fees

The maximum annual management fee paid by the Fund is a percentage of the average daily net asset value of each series of securities of the Fund exclusive of any applicable taxes and operating expenses, which is accrued daily and is paid to the Manager monthly in arrears. Management fees pay for portfolio and investment advisory services, oversight of any service providers, marketing and promotional activities, arranging for the distribution and sale of securities of the Fund, general administration of Fund operations and sales and trailing commissions paid to dealers.

The percentages and major services paid for out of the management fees are set out below:

	Maximum Annual Management Fee Rate (%)	As a Percentage of Management Fees	
		Dealer Compensation (%) ^(*)	General Administration, Investment Advice and Profit (%)
Series A Units	1.80	48	52
Series D Units	1.25	24	76
Series F Units	0.80	–	100
Series I Units ^(†)	–	–	–
Series O Units ^(†)	0.80	–	–

^(*) Includes sales and trailing commissions.

^(†) Series O management fees are not paid by the Fund. Series O investors pay management fees directly to the manager.

^(‡) Series I management fees are not paid by the Fund. Series I investors negotiate management fees and pay directly to the manager.

Past Performance

The performance information shown assumes that all distributions made by the Fund in the periods shown were reinvested in additional securities of the Fund. The performance information does not take into account sales, redemption, distribution, other optional charges or income tax payable by any unitholder that would have reduced returns or performance. How the Fund has performed in the past does not necessarily indicate how it will perform in the future.

Year-by-Year Returns

The following bar chart shows the Fund's annual performance for the period shown. The chart shows, in percentage terms, how much an investment made on the first day of each financial year would have grown or decreased by the last day of each financial year.

Series A Units – Annual return for the period ended December 31, 2019

Sun Life MFS Canadian Equity Growth Fund

Series D Units – Annual return for the period ended December 31, 2019

Series F Units – Annual return for the period ended December 31, 2019

Series I Units – Annual return for the period ended December 31, 2019

⁽ⁱ⁾ Returns not available for this time period because there were no investors in this series for a continuous calendar year.

^(j) for the period of April 2, 2012 to December 31, 2012.

Series O Units – Annual return for the period ended December 31, 2019

^(*) for the period of April 1, 2014 to December 31, 2014.

Annual Compound Returns

The table compares the historical annual compound total returns of Series A, D, F, I and O securities of the Fund with the following benchmark and broad-based index, if applicable:

The benchmark (the “Benchmark”) is composed of:
75.0% S&P/TSX Capped Composite Index
25.0% MSCI World Index C\$

The Series A units underperformed the benchmark over the past ten years, over the past five years, over the past three years, and over the past year.

The following are the broad-based index or indices:
Broad-based index 1 - S&P/TSX Composite Index
Broad-based index 2 - MSCI World Index C\$

	1 Year	3 Year	5 Year	10 Year	Performance Start Date ⁽ⁱ⁾⁽²⁾⁽³⁾⁽⁴⁾⁽⁵⁾
Series A	20.2%	7.9%	6.7%	6.1%	8.6%
Benchmark	22.5%	8.0%	7.6%	8.2%	10.6%
Broad-based index 1	22.9%	6.9%	6.3%	6.9%	9.6%
Broad-based index 2	21.2%	11.3%	11.2%	11.8%	13.1%

(**) Cash and Cash Equivalents, for the purpose of this chart, includes other assets less liabilities.

Forward-Looking Statements

This management report of fund performance may contain forward-looking statements about the Fund, including its strategy, results of operations, performance and condition. Forward-looking statements include statements that are predictive in nature, or that depend upon or refer to future events or conditions. They are based on current beliefs, expectations and projections about future events and are inherently subject to, among other things, risks, uncertainties and assumptions about the Fund and various economic factors. Many factors could cause the Fund's actual results, performance or achievements to be materially different from any future results, performance or achievements that may be expressed or implied by such forward-looking statements. These factors could include, among other things, general economic, political and market factors, including interest and foreign exchange rates, business competition, technological changes, changes in government regulations or in tax laws. Although the forward-looking statements contained in this report are based upon what management currently believes to be reasonable assumptions, the Manager cannot assure current or prospective investors that actual results, performance or achievements will be consistent with these forward-looking statements. The words "may", "could", "would", "should", "believe", "plan", "anticipate", "expect", "intend", "forecast", "objective", and similar expressions are intended to identify forward-looking statements. The Manager does not undertake any obligation to update or revise any forward-looking statements to reflect events or circumstances after the date of this document or to reflect new information or the occurrence of unanticipated events, except as required by law.
