## MANAGEMENT DISCUSSION OF FUND PERFORMANCE

### Investment Objectives and Strategies

The investment objectives of the Sun Life MFS Global Value Fund (the "Fund") are to seek capital appreciation by investing primarily in equity securities of issuers located anywhere in the world that are considered to be undervalued compared to their perceived worth.

The Fund's sub-advisor is MFS Investment Management Canada Limited ("MFS IMC") and the sub-advisor to MFS IMC is MFS Institutional Advisors, Inc. ("MFS"). MFS uses a bottom-up investment approach in selecting investments primarily based on fundamental analysis of issuers and their potential in light of their current financial condition and industry position, as well as market, economic, political and regulatory conditions. MFS also considers factors such as earnings, cash flows, competitive position and management ability of issuers. The Fund may invest in companies of any size anywhere in the world, including those in emerging markets.

### Risk

There were no changes in the Fund's investment objectives or strategies during the period which materially impacted the overall level of risk in the Fund. The risks associated with investing in the Fund remain as outlined in the Fund's Simplified Prospectus.

As at December 31, 2024, the majority of the Fund's investments are considered readily realizable and highly liquid; therefore, the Fund's liquidity risk is considered minimal.

### Results of Operations

During the period, the net asset value of the Fund increased from \$526.9 million to \$622.3 million due to positive net sales, as well as positive performance.

During the period, the Fund returned 15.5% for Series A securities, this result lagged the Fund's benchmark, MSCI World Index C\$, which returned 29.4%. Please refer to the 'Past Performance' section of this report for performance of each series of securities of the Fund.

During the reporting period, global stock markets recorded robust returns in the backdrop of macro-economic fragility, an escalation of geopolitical tensions and uncertainty with major elections in many parts of the world. Global stock markets have been supported by major global central banks pivoting to cutting interest rates amid signs of slower economic growth and easing inflation. The U.S. economy has been the primary driver of global stock market performance propelled by well-received and broadening corporate earnings growth and the ongoing enthusiasm around generative Artificial Intelligence (AI). Japan was also one of the better-performing markets over the period with Japanese equity markets surged to multi-decade highs. Corporate governance reforms and a weak yen attracted foreign investment while accommodative monetary policy from the Bank of Japan provided liquidity support. In this environment, Growth stocks outperformed Value stocks. Against this backdrop, returns were concentrated in larger companies, specifically those in the Information Technology sector, driven by optimism in AI-related innovation.

A combination of stock selection and overweight positioning within the Information Technology sector was the primary detractor from performance compared to the MSCI World Index. Not owning strong-performing computer graphics processor maker NVIDIA, and overweight holdings of semiconductor company Intel and electronic equipment manufacturer Kyocera detracted from performance compared to the benchmark. Stock selection within the Communication Services sector was also a detractor. The Fund's overweight holdings of cable services provider Comcast detracted returns as Comcast shares increased significantly during the reporting period. Not owning shares of social networking service provider Meta Platforms also weakened portfolio performance compared to the benchmark as Meta saw significant increase in its share price. In other sectors, the Fund's overweight positions in shares of investment management and banking firm UBS and vehicle components manufacturer Aptiv detracted from the portfolio's return as both companies have performed well during the reporting period.

---

Not owning any positions in the Real Estate sector contributed to performance as the sector underperformed the benchmark. Stock selection within the Financials sector contributed to performance compared to the benchmark led by the Fund's overweight holding of international banking and financial services provider NatWest Group, diversified financial services firms Mitsubishi UFJ Financial Group and financial services firm Goldman Sachs Group. Elsewhere, the Fund's overweight positions in shares of electronics company Hitachi, leading diversified industrial manufacturer Eaton Corp and electrical distribution equipment manufacturer Schneider Electric aided performance compared to the benchmark. The fund's out-of-benchmark exposure to semiconductor manufacturer Taiwan Semiconductor Manufacturing helped performance as the company share price increased significantly.

## Recent Developments

Global tensions and conflicts within some geographic regions have continued to impact global markets and economies. In addition, there continue to be tensions between larger nations over a number of issues, including trade, technology, human rights, and sovereignty. These issues have, in some cases, resulted in government sanctions and trade restrictions. These global tensions and regional conflicts, documented in the media, create a more challenging operating environment. The longer-term impact to geopolitical norms, supply chains and investment valuations is uncertain. The Manager continues to watch for developments and assess the impact to investment strategies.

## Related Party Transactions

SLGI Asset Management Inc. is the manager, trustee and portfolio manager of the Fund. For its services, the Manager receives a management fee that is calculated as a percentage of the average net asset value of the Fund. This fee is calculated daily and payable monthly.

The Manager is responsible for the provision of all general management and administrative services required by the Fund in its day-to-day operations, including providing or arranging for the provision of investment advice, bookkeeping, recordkeeping and other administrative services for the Fund.

As trustee, the Manager holds legal title to the Fund's investments in trust for securityholders.

As portfolio manager, the Manager is responsible for managing the investment portfolio of the Fund directly or through sub-advisors. The Manager has retained MFS Investment Management Canada Limited ("MFS IMC"), an affiliate of the Manager, to act as a sub-advisor for the Fund. The sub-advisor to MFS IMC is MFS Institutional Advisors, Inc. ("MFS"), which is an affiliate of MFS IMC. Sun Life Financial Inc. has an indirect majority ownership interest in MFS IMC and MFS.

The Fund may have direct or indirect holdings in Sun Life Financial Inc. or its affiliates or other funds managed by the Manager or its affiliates. Funds managed by the Manager, or its affiliates, may invest in securities of the Fund.

The Manager has a distribution agreement with Sun Life Financial Investment Services (Canada) Inc. (the "Dealer"), a company under common control, under which the Dealer may distribute securities of the funds offered by the Manager in the jurisdictions in which the Dealer is so authorized.

## Fund Administrative Expenses

The Manager pays certain operating expenses of the Fund (the "Administration Expenses") in return for a fixed administration fee paid to the Manager by the Fund ("Administration Fee"). The Administration Fee is based on the net asset value of each series of securities of the Fund. The Administration Expenses include, but are not limited to, record keeper fees, accounting, audit and legal fees, bank and interest charges, safekeeping and custodial fees, taxes, administrative and systems costs, costs of reports to investors, prospectuses and other disclosure documents, regulatory filing fees (including any regulatory fees and expenses payable by the Manager) and trustee fees for registered plans. The amount of this charge is disclosed as Fixed annual administration fees in the Fund's Statements of Comprehensive Income found in the annual financial statements.

The Fund also pays certain operating expenses directly (the "Fund Costs"). Fund Costs include: borrowing costs incurred by the Fund from time to time; costs in connection with portfolio transactions; fees and expenses payable to or in connection with the Independent Review Committee ("IRC"); taxes payable by the Fund; contingent fees for foreign tax reclaim filings; and the costs of complying with any new regulatory or legal requirement imposed on the Fund. The Fund allocates Fund Costs proportionately among each series of securities of the Fund to which they apply. The Fund Costs that are specific to a series of securities are allocated to that series. These amounts are paid out of the assets attributed to each series of securities of the Fund, which reduces the return you may receive.

# Sun Life MFS Global Value Fund

Fees and expenses payable to or in connection with the IRC are allocated to the fund and series to which they apply in a manner that, in the Manager's view, is considered fair and reasonable. For the purpose of allocating IRC costs across the Funds, the Manager distinguishes between two categories of Funds: Funds that are structured as fund of funds and Funds that hold direct investments. The Manager has determined that, based on the complexity of the issues to be reviewed by the IRC for the Funds in each category, it is appropriate for the Funds that are structured as fund of funds to be allocated a lesser proportion of IRC costs than Funds that hold direct investments. The Manager first attributes IRC costs to each such category of Funds, and then allocates such costs equally between the Funds in each category. The amounts of these charges are disclosed in the line item "Independent review committee fees" in the Fund's Statements of Comprehensive Income (Loss).

<sup>(1)</sup> This information is provided as at December 31 of the period shown, as applicable.

<sup>(2)</sup> Management expense ratio is based on total expenses (excluding broker commissions and other portfolio transaction costs) including the Fund's allocated percentage of Fund-on-Funds' expenses for the stated period and is expressed as an annualized percentage of daily average Net Asset Value during the period.

<sup>(3)</sup> The trading expense ratio represents total commissions and other portfolio transaction costs expressed as an annualized percentage of daily average Net Asset Value during the period.

<sup>(4)</sup> The Fund's portfolio turnover ratio indicates how actively the Fund's portfolio manager manages its portfolio investments. A portfolio turnover ratio of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the year. The higher a Fund's portfolio turnover ratio in a year, the greater the trading costs payable by the Fund in the year, and the greater the chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a high portfolio turnover rate and the performance of the Fund.

## Management Fees

The maximum annual management fee paid by the Fund is a percentage of the average daily net asset value of each series of securities of the Fund exclusive of any applicable taxes and operating expenses, which is accrued daily and is paid to the Manager monthly in arrears. Management fees pay for portfolio and investment advisory services, oversight of any service providers, marketing and promotional activities, arranging for the distribution and sale of securities of the Fund, general administration of Fund operations and sales and trailing commissions paid to dealers.

The percentages and major services paid for out of the management fees are set out below:

	Maximum Annual Management Fee Rate (%)	As a Percentage of Management Fees	
		Dealer Compensation (%) <sup>(1)</sup>	General Administration, Investment Advice and Profit (%)
Series A Securities	1.95	44	56
Series T5 Securities	1.95	44	56
Series T8 Securities	1.95	44	56
Series F Securities	0.95	-	100
Series F5 Securities	0.95	-	100
Series F8 Securities	0.95	-	100
Series I Securities <sup>(2)</sup>	-	-	100
Series O Securities <sup>(1)</sup>	0.95	-	100

<sup>(1)</sup> Includes sales and trailing commissions.

<sup>(2)</sup> Series O management fees are not paid by the Fund. Series O investors pay management fees directly to the Manager.

<sup>(4)</sup> Series I management fees are not paid by the Fund. Series I investors negotiate management fees and pay directly to the Manager.

## Forward-Looking Statements

This management report of fund performance may contain forward-looking statements about the Fund, including its strategies, results of operations, performance and condition. Forward-looking statements include statements that are predictive in nature, or that depend upon or refer to future events or conditions. They are based on current beliefs, expectations and projections about future events and are inherently subject to, among other things, risks, uncertainties and assumptions about the Fund and various economic factors. Many factors could cause the Fund's actual results, performance or achievements to be materially different from any future results, performance or achievements that may be expressed or implied by such forward-looking statements. These factors could include, among other things, general economic, political and market factors, including interest and foreign exchange rates, business competition, technological changes, changes in government regulations or in tax laws and pandemics. Although the forward-looking statements contained in this report are based upon what management currently believes to be reasonable assumptions, the Manager cannot assure current or prospective investors that actual results, performance or achievements will be consistent with these forward-looking statements. The words "may", "could", "would", "should", "believe", "plan", "anticipate", "expect", "intend", "forecast", "objective", and similar expressions are intended to identify forward-looking statements. The Manager does not undertake any obligation to update or revise any forward-looking statements to reflect events or circumstances after the date of this document or to reflect new information or the occurrence of unanticipated events, except as required by law.
