MANAGEMENT DISCUSSION OF FUND PERFORMANCE

Investment Objectives and Strategies

The fundamental investment objectives of the Sun Life MFS Global Value Fund (the "Fund") are to seek capital appreciation by investing primarily in equity securities of issuers located anywhere in the world that are considered to be undervalued compared to their perceived worth.

The Fund's sub-advisor is MFS Investment Management Canada Limited ("MFSIM") and the sub-advisor to MFSIM is MFS Institutional Advisors, Inc. ("MFS"). MFS uses a bottom-up investment approach in selecting investments primarily based on fundamental analysis of issuers and their potential in light of their current financial condition and industry position, as well as market, economic, political and regulatory conditions. MFS also considers factors such as earnings, cash flows, competitive position and management ability of issuers. The Fund may invest in companies of any size anywhere in the world, including those in emerging markets.

Risk

The risk-rating for the Fund has changed from "Medium" to "Low to Medium" effective as of July 18, 2019. This change is the result of a review that was conducted as part of Sun Life Global Investments' ongoing fund review process. The investment objectives and strategies of the Fund remain unchanged. The risks associated with investing in the Fund remain as outlined in the Fund's Simplified Prospectus.

Results of Operations

During the period, the net asset value of the Fund increased from \$403.0 million to \$422.3 million due to positive performance, partially offset by net redemptions.

During the period, the Fund returned 20.2% for Series A units, this result lagged the Fund's benchmark, which returned 21.2%. The performance returns for other series of this Fund are similar to those of Series A except for differences in expense structures. Please refer to the 'Past Performance' section of this report for performance of each series and a definition of the benchmark and broad-based index if applicable.

Stock selection within both the Consumer Staples and Real Estate sectors detracted from performance. Within the Consumer Staples sector, the Fund's overweight position in shares of chemical products company Henkel detracted from performance. Henkel issued a weak margin outlook and faced a significant decline in demand in key industries such as the automotive industry. The development of the Beauty Care Retail business was also significantly below expectations. Furthermore, the Fund's holding of household products manufacturer Reckitt Benckiser negatively impacted performance. While Reckitt's hygiene and home business was stable and improving, the health business, which accounts for more than half of its sales, was impacted negatively as Reckitt had trouble integrating Mead Johnson, a company acquired from 2017.

Within the Real Estate sector, the Fund's real estate company Deutsche Wohnen detracted from performance. Deutsche Wohnen shares were hit by the Berlin city government's approval of a plan to freeze rents in the German capital for five years.

The Fund's overweight position in shares of diversified technology company 3M detracted from performance. Holdings of custom IT consulting and technology services provider Cognizant Technology Solutions, and distribution and outsourcing service provider Bunzl also detracted from performance. The timing of the Fund's ownership in shares of investment management and banking firm UBS further detracted from performance. Cognizant Technology Solutions shares dropped to historic lows due to slipping margins and weakness in its core business. Bunzl's shares suffered over the period as earnings came in below expectations. Weaker growth of sales to grocery and retail customers in the U.S., combined with cost pressures, weighed on margins.

A combination of overweight allocation and security selection within the Information Technology sector contributed to performance. Taiwan Semiconductor was a top contributor. The company reported strong results on revenues and earnings as demand for chips increased driven by the rise of 5G devices. Other contributors included IT servicing firm Accenture, business system services company Nomura Research Institute, financial technology services provider Fiserv and semiconductor company Texas Instruments.

Sun Life MFS Global Value Fund

In other sectors, holdings of defense contractor Lockheed Martin, business and financial services company Moody's Corporation and global food company Nestle contributed to performance. The Fund's overweight position in shares of electrical distribution equipment manufacturer Schneider Electric also contributed to performance.

Recent Developments

The Manager announced on November 29, 2019 that it intended to separate Series O securities from the Sun Life Global Investments Private Client Program for all the mutual funds that it manages. Subsequent to the reporting period, the Manager implemented this change to the Private Client Program on February 26, 2020.

Fading fears of a near-term global recession, the announcement of a partial trade deal between the United States and China and the decline in uncertainty over Brexit helped bolster market sentiment late in the period. Changes in market sentiment, largely driven by uncertainty over the outcome of trade negotiations between the U.S. and China, had contributed to periodic bouts of volatility during the reporting period. The global economy decelerated, led by weakness in China and Europe, although the pace of the slowdown moderated late in the period amid nascent signs of stabilization in the manufacturing sector.

The deteriorating global growth backdrop, along with declining inflationary pressures, prompted the U.S. Federal Reserve to adopt a more accommodating posture beginning in early 2019, resulting in the first interest rate cut in over a decade at the end of July, followed by additional cuts in September and October. The Fed's actions led to a sharp decline in long-term interest rates during the period's second half, causing the inversion of portions of the U.S. Treasury yield curve for a time. Amid an improvement in risk sentiment in Q4 2019 and indications of a bottoming in growth and potential upturn in activity, the Fed indicated in October that further rate cuts were unlikely unless the outlook for the economy materially worsened.

Globally, central banks have tilted more accommodating as well, with the European Central Bank unveiling a package of easing measures, which included reducing overnight rates further, restarting its bond-buying program and lengthening the term of cheap loans to banks to three years from two. The central banks of India and Australia are among those that have cut rates several times in recent months, with China cutting rates only marginally as it keeps trying to deleverage its economy.

Market volatility improved in 2019 as the Fed became more accommodating. Despite the trade friction between the U.S. and China over much of the year, emerging market debts benefited from relatively cheap valuations at the beginning of the period and easier global monetary conditions.

The Manager cautions that the current global uncertainty with respect to the spread of the coronavirus (COVID-19) and its effect on the broader global economy may have a significant impact to the volatility of the financial market. While the precise impact remains unknown, rapid spread of the virus may have a material adverse effect on global economic activity and disrupt global supply chains, operations, mobility of people, which could affect interest rates, credit ratings, credit risk, inflation, business, financial conditions, results of operations and other factors relevant to fund performance.

Related Party Transactions

Sun Life Global Investments (Canada) Inc. (the "Manager") is the manager, trustee and portfolio manager of the Fund. For its services, the Manager receives a management fee that is calculated as a percentage of the average net asset value of the Fund. This fee is calculated daily and payable monthly.

The Manager is responsible for the provision of all general management and administrative services required by the Fund in its day-to-day operations, including providing or arranging for the provision of investment advice, bookkeeping, recordkeeping and other administrative services for the Fund.

As trustee, the Manager holds legal title to the Fund's investments in trust for unitholders.

As portfolio manager, the Manager is responsible for managing the investment portfolio of the Fund directly or through sub-advisors. The Manager has retained MFS Institutional Advisors, Inc. ("MFS"), an affiliate, to act as a sub-advisor for the Fund.

The Manager is an indirect wholly owned subsidiary of Sun Life Financial Inc., which also has an indirect majority ownership interest in MFS.

Fund Administrative Expenses

The Manager pays certain operating expenses of the Fund (the "Administration Expenses") in return for a fixed administration fee paid to the Manager by the Fund ("Administration Fee"). The Administration Fee is based on the net asset value of each series of the Fund. The Administration Expenses include, but are not limited to, record keeper fees, accounting, audit and legal fees, bank and interest charges, safekeeping and custodial fees, taxes, administrative and systems costs, costs of reports to investors, prospectuses and other disclosure documents, regulatory filing fees (including those incurred by the Manager) and trustee fees for registered plans. The amount of this charge is disclosed as Fixed annual administration fees in the Fund's Statement of Comprehensive Income found in the annual financial statements.

Sun Life MFS Global Value Fund

The Fund also pays certain operating expenses directly (the "Fund Costs"). Fund Costs include: borrowing costs incurred by the Fund from time to time; costs in connection with portfolio transactions; fees and expenses payable to or in connection with the Fund's Independent Review Committee ("IRC"); taxes payable by the Fund; and the costs of complying with any new regulatory or legal requirement imposed on the Fund. The Fund allocates Fund Costs proportionately among each series of the Fund to which they apply. The Fund Costs that are specific to a series of securities are allocated to that series. These amounts are paid out of the assets attributed to each series of securities of the Fund, which reduces the return you may receive.

⁽¹⁾ This information is provided as at December 31 of the period shown, as applicable.

⁽²⁾ Management expense ratio is based on total expenses (excluding broker commissions and other portfolio transaction costs) including the Fund's allocated percentage of Fund-on-Funds' expenses for the stated period and is expressed as an annualized percentage of daily average Net Asset Value during the period.

⁽³⁾ The trading expense ratio represents total commissions and other portfolio transaction costs expressed as an annualized percentage of daily average Net Asset Value during the period.

⁽⁴⁾ The Fund's portfolio turnover ratio indicates how actively the Fund's portfolio manager manages its portfolio investments. A portfolio turnover ratio of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the year. The higher a Fund's portfolio turnover ratio in a year, the greater the trading costs payable by the Fund in the year, and the greater the chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a high portfolio turnover rate and the performance of the Fund.

Management Fees

The maximum annual management fee paid by the Fund is a percentage of the average daily net asset value of each series of securities of the Fund exclusive of any applicable taxes and operating expenses, which is accrued daily and is paid to the Manager monthly in arrears. Management fees pay for portfolio and investment advisory services, oversight of any service providers, marketing and promotional activities, arranging for the distribution and sale of securities of the Fund, general administration of Fund operations and sales and trailing commissions paid to dealers.

The percentages and major services paid for out of the management fees are set out below:

	Maximum Annual Management Fee Rate (%)	As a Percentage of Management Fees	
		Dealer Compensation (%) ^(*)	General Administration, Investment Advice and Profit (%)
Series A Units	2.00	41	59
Series T5 Units	2.00	58	42
Series T8 Units	2.00	45	55
Series F Units	1.00	–	100
Series F5 Units	1.00	–	100
Series F8 Units	1.00	–	100
Series I Units ^(†)	–	–	–
Series O Units ^(‡)	1.00	–	–

^(*) Includes sales and trailing commissions.

^(†) Series O management fees are not paid by the Fund. Series O investors pay management fees directly to the manager.

^(‡) Series I management fees are not paid by the Fund. Series I investors negotiate management fees and pay directly to the manager.

Forward-Looking Statements

This management report of fund performance may contain forward-looking statements about the Fund, including its strategy, results of operations, performance and condition. Forward-looking statements include statements that are predictive in nature, or that depend upon or refer to future events or conditions. They are based on current beliefs, expectations and projections about future events and are inherently subject to, among other things, risks, uncertainties and assumptions about the Fund and various economic factors. Many factors could cause the Fund's actual results, performance or achievements to be materially different from any future results, performance or achievements that may be expressed or implied by such forward-looking statements. These factors could include, among other things, general economic, political and market factors, including interest and foreign exchange rates, business competition, technological changes, changes in government regulations or in tax laws. Although the forward-looking statements contained in this report are based upon what management currently believes to be reasonable assumptions, the Manager cannot assure current or prospective investors that actual results, performance or achievements will be consistent with these forward-looking statements. The words "may", "could", "would", "should", "believe", "plan", "anticipate", "expect", "intend", "forecast", "objective", and similar expressions are intended to identify forward-looking statements. The Manager does not undertake any obligation to update or revise any forward-looking statements to reflect events or circumstances after the date of this document or to reflect new information or the occurrence of unanticipated events, except as required by law.
