MANAGEMENT DISCUSSION OF FUND PERFORMANCE

Investment Objectives and Strategies

The investment objectives of the Sun Life Milestone Global Equity Fund (the "Fund") are to seek long-term capital appreciation by obtaining an enhanced exposure to equity market indices in North America, Europe and the Far East through investments primarily in derivatives.

The Fund's sub-advisor is Sun Life Capital Management (Canada) Inc. (the "Sub-Advisor"). The portfolio manager and Sub-Advisor manage the Fund by investing in derivatives of equity market indices and seek to earn a return on the Fund that is larger, both positive and negative, than returns on the equity markets that they are invested in. The Sub-Advisor also uses risk management techniques, such as investing in options, to hedge the portfolio against a sudden drop of a market index.

Risk

There were no changes in the Fund's investment objectives or strategies during the period which materially impacted the overall level of risk in the Fund.

As at December 31, 2024, the majority of the Fund's investments are considered readily realizable and highly liquid; therefore, the Fund's liquidity risk is considered minimal.

Results of Operations

During the period, the net asset value of the Fund increased from \$220.6 million to \$236.1 million due to positive performance, partially offset by negative net sales.

During the period, the Fund returned 21.6% for Series I securities, this result surpassed the Fund's benchmark, MSCI AC World Index Local Currency Index C\$, which returned 20.2%. The broad-based index, MSCI World Index C\$, returned 29.4%. We have included the returns of the broad-based index to help you understand how the Fund performed compared to the general market. Please refer to the 'Past Performance' section of this report for performance of each series of securities of the Fund.

The Fund underperformed its broad-based index due to its lower exposure to U.S. equities. U.S. equities outperformed other equity markets during the period.

During the reporting period, global stock markets recorded robust returns in the backdrop of macro-economic fragility, an escalation of geopolitical tensions and uncertainty with major elections in many parts of the world. Global stock markets have been supported by major global central banks pivoting to cutting interest rates amid signs of slower economic growth and easing inflation. The U.S. economy has been the primary driver of global stock market performance propelled by well-received and broadening corporate earnings growth and the ongoing enthusiasm around generative Artificial Intelligence (AI). Japan was also one of the better-performing markets over the period with Japanese equity markets surged to multi-decade highs. Corporate governance reforms and a weak yen attracted foreign investment while accommodative monetary policy from the Bank of Japan provided liquidity support. In this environment, Growth stocks outperformed Value stocks. Against this backdrop, returns were concentrated in larger companies, specifically those in the Information Technology sector, driven by optimism in AI-related innovation.

Global equity market performance was positive for the period. Global equity markets moved up due to cooling inflation, interest rate cuts and investor preference for AI stocks. An overweight exposure to equity contributed to performance.

Recent Developments

Global tensions and conflicts within some geographic regions have continued to impact global markets and economies. In addition, there continue to be tensions between larger nations over a number of issues, including trade, technology, human rights, and sovereignty. These issues have, in some cases, resulted in government sanctions and trade restrictions. These global tensions and regional conflicts, documented in the media, create a more challenging operating environment. The longer-term impact to geopolitical norms, supply chains and investment valuations is uncertain. The Manager continues to watch for developments and assess the impact to investment strategies.

Sun Life Milestone Global Equity Fund

Related Party Transactions

SLGI Asset Management Inc. is the manager, trustee and portfolio manager of the Fund. For its services, the Manager receives a management fee that is calculated as a percentage of the average net asset value of the Fund. This fee is calculated daily and payable monthly.

The Manager is responsible for the provision of all general management and administrative services required by the Fund in its day-to-day operations, including providing or arranging for the provision of investment advice, bookkeeping, recordkeeping and other administrative services for the Fund.

As trustee, the Manager holds legal title to the Fund's investments in trust for securityholders.

As portfolio manager, the Manager is responsible for managing the investment portfolio of the Fund directly or through sub-advisors. The Manager has retained Sun Life Capital Management (Canada) Inc. ("SLC Management"), an affiliate of the Manager, to act as a sub-advisor for the Fund.

The Fund may have direct or indirect holdings in Sun Life Financial Inc. or its affiliates or other funds managed by the Manager or its affiliates. Funds managed by the Manager, or its affiliates, may invest in securities of the Fund.

The Manager has a distribution agreement with Sun Life Financial Investment Services (Canada) Inc. (the "Dealer"), a company under common control, under which the Dealer may distribute securities of the funds offered by the Manager in the jurisdictions in which the Dealer is so authorized.

SLC Management is an indirect wholly owned subsidiary of Sun Life Financial Inc.

Fund Administrative Expenses

The Manager pays certain operating expenses of the Fund (the "Administration Expenses") in return for a fixed administration fee paid to the Manager by the Fund ("Administration Fee"). The Administration Fee is based on the net asset value of each series of securities of the Fund. The Administration Expenses include, but are not limited to, record keeper fees, accounting, audit and legal fees, bank and interest charges, safekeeping and custodial fees, taxes, administrative and systems costs, costs of reports to investors, prospectuses and other disclosure documents, regulatory filing fees (including any regulatory fees and expenses payable by the Manager) and trustee fees for registered plans. The amount of this charge is disclosed as Fixed annual administration fees in the Fund's Statements of Comprehensive Income found in the annual financial statements.

The Fund also pays certain operating expenses directly (the "Fund Costs"). Fund Costs include: borrowing costs incurred by the Fund from time to time; costs in connection with portfolio transactions; fees and expenses payable to or in connection with the Independent Review Committee ("IRC"); taxes payable by the Fund; contingent fees for foreign tax reclaim filings; and the costs of complying with any new regulatory or legal requirement imposed on the Fund. The Fund allocates Fund Costs proportionately among each series of securities of the Fund to which they apply. The Fund Costs that are specific to a series of securities are allocated to that series. These amounts are paid out of the assets attributed to each series of securities of the Fund, which reduces the return you may receive.

Fees and expenses payable to or in connection with the IRC are allocated to the fund and series to which they apply in a manner that, in the Manager's view, is considered fair and reasonable. For the purpose of allocating IRC costs across the Funds, the Manager distinguishes between two categories of Funds: Funds that are structured as fund of funds and Funds that hold direct investments. The Manager has determined that, based on the complexity of the issues to be reviewed by the IRC for the Funds in each category, it is appropriate for the Funds that are structured as fund of funds to be allocated a lesser proportion of IRC costs than Funds that hold direct investments. The Manager first attributes IRC costs to each such category of Funds, and then allocates such costs equally between the Funds in each category. The amounts of these charges are disclosed in the line item "Independent review committee fees" in the Fund's Statements of Comprehensive Income (Loss).

Net asset value per security (\$) ⁽¹⁾	46.57	38.29	30.92	38.36	31.37

⁽¹⁾ This information is provided as at December 31 of the period shown, as applicable.

⁽²⁾ Management expense ratio is based on total expenses (excluding broker commissions and other portfolio transaction costs) including the Fund's allocated percentage of Fund-on-Funds' expenses for the stated period and is expressed as an annualized percentage of daily average Net Asset Value during the period.

⁽³⁾ The trading expense ratio represents total commissions and other portfolio transaction costs expressed as an annualized percentage of daily average Net Asset Value during the period.

⁽⁴⁾ The Fund's portfolio turnover ratio indicates how actively the Fund's portfolio manager manages its portfolio investments. A portfolio turnover ratio of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the year. The higher a Fund's portfolio turnover ratio in a year, the greater the trading costs payable by the Fund in the year, and the greater the chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a high portfolio turnover rate and the performance of the Fund.

Management Fees

The maximum annual management fee paid by the Fund is a percentage of the average daily net asset value of each series of securities of the Fund exclusive of any applicable taxes and operating expenses, which is accrued daily and is paid to the Manager monthly in arrears. Management fees pay for portfolio and investment advisory services, oversight of any service providers, marketing and promotional activities, arranging for the distribution and sale of securities of the Fund, general administration of Fund operations and sales and trailing commissions paid to dealers.

Series I management fees are not paid by the Fund. Series I investors negotiate management fees and pay directly to the Manager.

Past Performance

The performance information shown assumes that all distributions made by the Fund in the periods shown were reinvested in additional securities of the Fund. The performance information does not take into account sales, redemption, distribution, other optional charges or income tax payable by any securityholder that would have reduced returns or performance. How the Fund has performed in the past does not necessarily indicate how it will perform in the future.

Year-by-Year Returns

The following bar chart shows the Fund's annual performance for the period shown. The chart shows, in percentage terms, how much an investment made on the first day of each financial year would have grown or decreased by the last day of each financial year.
