MANAGEMENT DISCUSSION OF FUND PERFORMANCE

Investment Objectives and Strategies

The fundamental investment objectives of the Sun Life Money Market Class (the "Fund") are to seek to achieve a high level of current income while seeking to protect capital and to maintain liquidity through exposure to primarily Canadian Dollar-denominated money market instruments investing primarily in units of Sun Life Money Market Fund or its successor fund (the "underlying Trust Fund").

The underlying Trust Fund's Sub-Advisor is MFS Investment Management Canada Limited (the "Sub-Advisor") and the Sub-Advisor to MFSIM is MFS Institutional Advisors, Inc. ("MFS"). The Sub-Advisor invests the underlying Trust Fund in a diversified portfolio of short-term debt obligations of corporations (such as commercial paper), governments (such as treasury bills) and floating rate notes maturing within one year. The underlying Trust Fund may also invest up to 10% of the underlying Trust Fund's assets in Canadian Dollar-denominated money market instruments of foreign issuers.

Risk

There were no changes in the Fund's investment objectives or strategies during the period which materially impacted the overall level of risk in the Fund. The risks associated with investing in the Fund remain as outlined in the Fund's Simplified Prospectus.

Results of Operations

During the period, the net asset value of the Fund increased from \$10.5 million to \$12.5 million due to positive net sales, as well as positive performance.

During the period, the Fund returned 1.0% for Series A shares, this result lagged the Fund's benchmark, which returned 1.6%. The performance returns for other series of this Fund are similar to those of Series A except for differences in expense structures. Please refer to the 'Past Performance' section of this report for performance of each series and a definition of the benchmark and broad-based index if applicable.

The Fund currently invests substantially all of its holdings in units of the Sun Life Money Market Fund (the "underlying Trust Fund"). The following commentary relates to the underlying Trust Fund.

The underlying Trust Fund's commitment to high-quality provincial holdings and commercial paper helped boost the underlying Trust Fund's overall yield during a period of low real interest rates.

There were no material detractors during the period.

Recent Developments

Sun Life Global Investments (Canada) Inc. (the "Manager") announced on November 29, 2019 that it intended to separate Series O securities from the Sun Life Global Investments Private Client Program for all the mutual funds that it manages. Subsequent to the reporting period, the Manager implemented this change to the Private Client Program on February 26, 2020.

Global fixed income interest rates moved lower for much of the year due to concerns around economic growth hindered by slowing manufacturing and global trade. The debate has centered on when or if manufacturing sector weakness would hinder the broader economy. Additionally, ongoing trade tensions, political uncertainty and below target inflation intensified concerns. The market seemed to react to these concerns.

Lower rates are generally consistent with concerns for mounting risks and an expectation for a policy response. However, over the period, the narrowing in credit spreads and rising valuations in corporate bonds, as well as equities for that matter, revealed the market was willing to take on risk despite the less than favourable backdrop. Furthermore, central bank actions had varying influences on bond yields and credit spreads. Markedly, the U.S. Federal Reserve concluded, for the time being, its preemptive rate cuts that helped to provide an accommodative backdrop and ease market concerns. The Bank of Canada, on the other hand, remained steadfast, keeping target interest rates unchanged throughout the year. Most notably, central banks helped to restore market confidence.

The Manager cautions that the current global uncertainty with respect to the spread of the coronavirus (COVID-19) and its effect on the broader global economy may have a significant impact to the volatility of the financial market. While the precise impact remains unknown, rapid spread of the virus may have a material adverse effect on global economic activity and disrupt global supply chains, operations, mobility of people, which could affect interest rates, credit ratings, credit risk, inflation, business, financial conditions, results of operations and other factors relevant to fund performance.

Sun Life Money Market Class

Related Party Transactions

Sun Life Global Investments (Canada) Inc. is the manager, and portfolio manager of the Fund.

The Manager is responsible for the provision of all general management and administrative services required by the Fund in its day-to-day operations, including providing or arranging for the provision of investment advice, bookkeeping, recordkeeping and other administrative services for the Fund.

For its services, the Manager receives a management fee that is calculated as a percentage of the average net asset value of the Fund. This fee is calculated daily and payable monthly.

As portfolio manager, the Manager is responsible for managing the investment portfolio of the Fund.

The Manager is an indirect wholly owned subsidiary of Sun Life Financial Inc.

Fund Administrative Expenses

The Manager pays certain operating expenses of the Fund (the "Administration Expenses") in return for a fixed administration fee paid to the Manager by the Fund ("Administration Fee"). The Administration Fee is based on the net asset value of each series of the Fund. The Administration Expenses include, but are not limited to, record keeper fees, accounting, audit and legal fees, bank and interest charges, safekeeping and custodial fees, taxes, administrative and systems costs, costs of reports to investors, prospectuses and other disclosure documents, regulatory filing fees (including those incurred by the Manager) and trustee fees for registered plans. The amount of this charge is disclosed as Fixed annual administration fees in the Fund's Statement of Comprehensive Income found in the annual financial statements.

The Fund also pays certain operating expenses directly (the "Fund Costs"). Fund Costs include: borrowing costs incurred by the Fund from time to time; costs in connection with portfolio transactions; fees and expenses payable to or in connection with the Fund's Independent Review Committee ("IRC"); taxes payable by the Fund; and the costs of complying with any new regulatory or legal requirement imposed on the Fund. The Fund allocates Fund Costs proportionately among each series of the Fund to which they apply. The Fund Costs that are specific to a series of securities are allocated to that series. These amounts are paid out of the assets attributed to each series of securities of the Fund, which reduces the return you may receive.

⁽¹⁾ This information is provided as at December 31 of the period shown, as applicable.

⁽²⁾ Management expense ratio is based on total expenses (excluding broker commissions and other portfolio transaction costs) including the Fund's allocated percentage of Fund-on-Funds' expenses for the stated period and is expressed as an annualized percentage of daily average Net Asset Value during the period.

⁽³⁾ The trading expense ratio represents total commissions and other portfolio transaction costs expressed as an annualized percentage of daily average Net Asset Value during the period.

⁽⁴⁾ The Fund's portfolio turnover ratio indicates how actively the Fund's portfolio manager manages its portfolio investments. A portfolio turnover ratio of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the year. The higher a Fund's portfolio turnover ratio in a year, the greater the trading costs payable by the Fund in the year, and the greater the chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a high portfolio turnover rate and the performance of the Fund.

Management Fees

The maximum annual management fee paid by the Fund is a percentage of the average daily net asset value of each series of securities of the Fund exclusive of any applicable taxes and operating expenses, which is accrued daily and is paid to the Manager monthly in arrears. Management fees pay for portfolio and investment advisory services, oversight of any service providers, marketing and promotional activities, arranging for the distribution and sale of securities of the Fund, general administration of Fund operations and sales and trailing commissions paid to dealers.

The percentages and major services paid for out of the management fees are set out below:

	As a Percentage of Management Fees		
	Maximum Annual Management Fee Rate (%)	Dealer Compensation (%) ^(*)	General Administration, Investment Advice and Profit (%)
Series A Shares	1.00	46	54
Series F Shares	0.75	-	100
Series O Shares ^(†)	0.75	-	-

^(*) Includes sales and trailing commissions.

^(†) Series O management fees are not paid by the Fund. Series O investors pay management fees directly to the manager.

Forward-Looking Statements

This management report of fund performance may contain forward-looking statements about the Fund, including its strategy, results of operations, performance and condition. Forward-looking statements include statements that are predictive in nature, or that depend upon or refer to future events or conditions. They are based on current beliefs, expectations and projections about future events and are inherently subject to, among other things, risks, uncertainties and assumptions about the Fund and various economic factors. Many factors could cause the Fund's actual results, performance or achievements to be materially different from any future results, performance or achievements that may be expressed or implied by such forward-looking statements. These factors could include, among other things, general economic, political and market factors, including interest and foreign exchange rates, business competition, technological changes, changes in government regulations or in tax laws. Although the forward-looking statements contained in this report are based upon what management currently believes to be reasonable assumptions, the Manager cannot assure current or prospective investors that actual results, performance or achievements will be consistent with these forward-looking statements. The words "may", "could", "would", "should", "believe", "plan", "anticipate", "expect", "intend", "forecast", "objective", and similar expressions are intended to identify forward-looking statements. The Manager does not undertake any obligation to update or revise any forward-looking statements to reflect events or circumstances after the date of this document or to reflect new information or the occurrence of unanticipated events, except as required by law.
