SLGI Asset Management Inc. (the "Manager") is an indirect wholly owned subsidiary of Sun Life Financial Inc.

MANAGEMENT DISCUSSION OF FUND PERFORMANCE

Investment Objectives and Strategies

The fundamental investment objectives of the Sun Life Multi-Strategy Bond Fund (the "Fund") are to seek to earn a high rate of income by investing primarily in fixed-income securities of Canadian government and corporate issuers.

The Fund seeks to achieve its investment objective by investing primarily in fixed-income securities of Canadian government and corporate issuers. The Fund will invest a portion of its net assets directly in such securities, and will invest the remainder of its net assets indirectly in underlying funds that invest in such securities. The Manager, together with Connor, Clark & Lunn Investment Management Ltd. (the "Sub-Advisor") will actively manage the portfolio to seek to add value. The fund may also from time to time invest up to 20% of the Fund's portfolio in fixed-income securities of governments and companies outside of Canada.

Risk

There were no changes in the Fund's investment objectives or strategies during the period which materially impacted the overall level of risk in the Fund. The risks associated with investing in the Fund remain as outlined in the Fund's Simplified Prospectus.

Results of Operations

During the period, the net asset value of the Fund decreased from \$397.3 million to \$334.2 million due to net redemptions, as well as negative performance.

During the period, the Fund returned -3.4% for Series A securities, this result lagged the Fund's benchmark, FTSE Canada Universe Bond Index, which returned -2.5%. Please refer to the 'Past Performance' section of this report for performance of each series.

Short-term Canadian government bond yields rose in the final months of 2021. Investors priced in more aggressive rate hikes in 2022. Long-term yields finished lower and mid-term bond yields rose at a modest rate. As a result, long term corporate bonds outperformed short term corporate bonds. Federal bond yields moved higher across short-, medium- and long-term bonds. With that, corporate bonds outperformed federal bonds during the year. Bond yields and bond prices have an inverse relationship. As bond yields rise, bond prices drop.

The Fund's opportunistic allocation to global sovereign bonds detracted from performance compared to the FTSE Canada Universe Bond Index. A sovereign bond is a debt security issued by a national government to fund government programs. Security selection in high quality corporate bonds in Communication Services, Financials and Utilities detracted from performance.

The Fund's positioning on the yield curve (a line that plots yields of bonds with equal credit quality but different maturity dates) contributed to performance. The Fund adjusted the portfolio several times following large moves in bond yields. An overweight allocation to corporate bonds contributed to performance as corporate spreads tightened. A spread is the difference in yield between a Treasury bond and another debt security of the same maturity but different credit quality.

Recent Developments

Global equity markets went up after the arrival of COVID-19 vaccines in 2021. Billions of dollars of stimulus spending by governments worldwide also helped fuel the stock markets. Central banks around the world lowered or kept their benchmark interest rates low to aid the economic recovery. However, reasons for caution have not gone away. The market turned volatile during the second half of the year. Investors shifted their attention to challenges facing COVID-19. The concerns included the Delta and Omicron variants of COVID-19. The rising cases weighed on the stock markets. The Manager cautioned a slowdown in global growth pending the COVID-19 variant infection rates. Supply chain disruption, rising inflation and the expected tapering of bond purchases in 2022 were also top concerns.

Sun Life Multi-Strategy Bond Fund

The sub-advisor relies on in-depth research, investment horizon, and risk management to manage the Fund. They integrate Environmental, Social and Governance (ESG) factors, spanning ESG risks and opportunities, into the overall investment process for the Fund. They strive to consider proxy voting policies and actively engage with companies on ESG-oriented issues.

Effective July 14, 2021, the Fund updated its investment strategies to include ESG factors. The Manager believes ESG factors can influence an investment's performance.

The Manager stopped offering the deferred sales charge ("DSC") and low load sales charge ("LL") purchase options on securities of the Fund. This change took place after the close of business on or about November 26, 2021. After November 26, 2021, all DSC and LL purchase options are closed to purchases, including purchases made through systematic plans such as pre-authorized chequing plans. Securities purchased under the DSC and LL purchase options on or prior to November 26, 2021 may continue to be held in investor accounts. Switching securities between Funds held under the DSC or LL purchase option will continue to be permitted. The Manager is implementing these changes in anticipation of regulatory changes mandated by the Canadian securities regulatory authorities ending the sale of DSC and LL purchase options across all Canadian jurisdictions that takes effect on June 1, 2022. For any impacted systematic plans that invested into DSC or LL purchase options, new instructions were provided on or before November 26, 2021. Without new instructions, these systematic plans would be terminated after November 26, 2021. Effective on or before March 31, 2022, the Manager will no longer pay trailing commissions to dealers that do not make suitability determinations (the "Impacted Dealers"), such as Order Execution Only dealers. The Manager is implementing this change in anticipation of the regulatory requirement mandated by the Canadian securities regulatory authorities to end the payment of trailing commissions to Impacted Dealers that takes effect on June 1, 2022. Effective on or before March 31, 2022, accounts at Impacted Dealers will only be permitted to purchase or hold securities of Series F, Series F5, Series FT5, Series F8, Series FT8, Series FH, Series IS, Series O and Series OH securities of the fund.

On 24 February 2022, Russia launched a large-scale military invasion of Ukraine. Russian markets were subsequently suspended. Various international sanctions have been levied against Russia. The broader impact to the region and around the world is still unfolding. The Manager cautions that the current global uncertainty with respect to this military invasion and its effect on the broader global economy may have a significant impact to the volatility of financial markets. While the precise impacts remain unknown, continued military conflict may have a material adverse effect on global economic activity. This could disrupt global supply chains, operations, and mobility of people. This also could affect interest rates, credit ratings, credit risk, inflation, business, financial conditions, results of operations and other factors relevant to Fund performance.

Related Party Transactions

SLGI Asset Management Inc. is the manager, trustee and portfolio manager of the Fund. For its services, the Manager receives a management fee that is calculated as a percentage of the average net asset value of the Fund. This fee is calculated daily and payable monthly.

The Manager is responsible for the provision of all general management and administrative services required by the Fund in its day-to-day operations, including providing or arranging for the provision of investment advice, bookkeeping, recordkeeping and other administrative services for the Fund.

As trustee, the Manager holds legal title to the Fund's investments in trust for securityholders.

As portfolio manager, the Manager is responsible for managing the investment portfolio of the Fund directly or through sub-advisors. The Manager has retained Connor, Clark & Lunn Investment Management Ltd. to act as a sub-advisor for a portion of the Fund. The Manager retains responsibility for investing the remainder of the portfolio in underlying funds.

This Fund may have direct or indirect holdings in Sun Life Financial Inc. or its affiliates or other funds managed by the Manager or its affiliates. Funds managed by the Manager, or its affiliates, may invest in securities of this fund.

Fees and expenses payable to or in connection with the Sun Life Funds' Independent Review Committee ("IRC") are allocated to the series to which they apply in a manner that, in the Manager's view, is considered fair and reasonable. The amounts of these charges are disclosed in the line item "Independent review committee fees" in the Fund's Statements of Comprehensive Income (Loss).

Sun Life Multi-Strategy Bond Fund

The Manager has a distribution agreement with Sun Life Financial Investment Services (Canada) Inc. (the “Dealer”), a company under common control under which the Dealer may distribute securities of the funds offered by the Manager in the jurisdictions in which the Dealer is so authorized.

Fund Administrative Expenses

The Manager pays certain operating expenses of the Fund (the “Administration Expenses”) in return for a fixed administration fee paid to the Manager by the Fund (“Administration Fee”). The Administration Fee is based on the net asset value of each series of securities of the Fund. The Administration Expenses include, but are not limited to, record keeper fees, accounting, audit and legal fees, bank and interest charges, safekeeping and custodial fees, taxes, administrative and systems costs, costs of reports to investors, prospectuses and other disclosure documents, regulatory filing fees (including those incurred by the Manager) and trustee fees for registered plans. The amount of this charge is disclosed as Fixed annual administration fees in the Fund’s Statement of Comprehensive Income found in the annual financial statements.

The Fund also pays certain operating expenses directly (the “Fund Costs”). Fund Costs include: borrowing costs incurred by the Fund from time to time; costs in connection with portfolio transactions; fees and expenses payable to or in connection with the Fund’s IRC; taxes payable by the Fund; and the costs of complying with any new regulatory or legal requirement imposed on the Fund. The Fund allocates Fund Costs proportionately among each series of securities of the Fund to which they apply. The Fund Costs that are specific to a series of securities are allocated to that series. These amounts are paid out of the assets attributed to each series of securities of the Fund, which reduces the return you may receive.

(1) This information is provided as at December 31 of the period shown, as applicable.

(2) Management expense ratio is based on total expenses (excluding broker commissions and other portfolio transaction costs) including the Fund's allocated percentage of Fund-on-Funds' expenses for the stated period and is expressed as an annualized percentage of daily average Net Asset Value during the period.

(3) The trading expense ratio represents total commissions and other portfolio transaction costs expressed as an annualized percentage of daily average Net Asset Value during the period.

(4) The Fund's portfolio turnover ratio indicates how actively the Fund's portfolio manager manages its portfolio investments. A portfolio turnover ratio of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the year. The higher a Fund's portfolio turnover ratio in a year, the greater the trading costs payable by the Fund in the year, and the greater the chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a high portfolio turnover rate and the performance of the Fund.

Management Fees

The maximum annual management fee paid by the Fund is a percentage of the average daily net asset value of each series of securities of the Fund exclusive of any applicable taxes and operating expenses, which is accrued daily and is paid to the Manager monthly in arrears. Management fees pay for portfolio and investment advisory services, oversight of any service providers, marketing and promotional activities, arranging for the distribution and sale of securities of the Fund, general administration of Fund operations and sales and trailing commissions paid to dealers.

Sun Life Multi-Strategy Bond Fund

The percentages and major services paid for out of the management fees are set out below:

	Maximum Annual Management Fee Rate (%)	As a Percentage of Management Fees	
		Dealer Compensation (%) ^(*)	General Administration, Investment Advice and Profit (%)
Series A Securities	1.00	62	38
Series F Securities	0.50	-	100
Series I Securities ^(‡)	-	-	100
Series O Securities ^(†)	0.50	-	100

(*) Includes sales and trailing commissions.

(†) Series O management fees are not paid by the Fund. Series O investors pay management fees directly to the Manager.

(‡) Series I management fees are not paid by the Fund. Series I investors negotiate management fees and pay directly to the Manager.

Past Performance

The performance information shown assumes that all distributions made by the Fund in the periods shown were reinvested in additional securities of the Fund. The performance information does not take into account sales, redemption, distribution, other optional charges or income tax payable by any securityholder that would have reduced returns or performance. How the Fund has performed in the past does not necessarily indicate how it will perform in the future.

Year-by-Year Returns

The following bar chart shows the Fund's annual performance for the period shown. The chart shows, in percentage terms, how much an investment made on the first day of each financial year would have grown or decreased by the last day of each financial year.

Forward-Looking Statements

This management report of fund performance may contain forward-looking statements about the Fund, including its strategies, results of operations, performance and condition. Forward-looking statements include statements that are predictive in nature, or that depend upon or refer to future events or conditions. They are based on current beliefs, expectations and projections about future events and are inherently subject to, among other things, risks, uncertainties and assumptions about the Fund and various economic factors. Many factors could cause the Fund's actual results, performance or achievements to be materially different from any future results, performance or achievements that may be expressed or implied by such forward-looking statements. These factors could include, among other things, general economic, political and market factors, including interest and foreign exchange rates, business competition, technological changes, changes in government regulations or in tax laws and pandemics. Although the forward-looking statements contained in this report are based upon what management currently believes to be reasonable assumptions, the Manager cannot assure current or prospective investors that actual results, performance or achievements will be consistent with these forward-looking statements. The words "may", "could", "would", "should", "believe", "plan", "anticipate", "expect", "intend", "forecast", "objective", and similar expressions are intended to identify forward-looking statements. The Manager does not undertake any obligation to update or revise any forward-looking statements to reflect events or circumstances after the date of this document or to reflect new information or the occurrence of unanticipated events, except as required by law.
