MANAGEMENT DISCUSSION OF FUND PERFORMANCE

Investment Objectives and Strategies

The fundamental investment objectives of the Sun Life Multi-Strategy Bond Fund (the "Fund") are to seek to earn a high rate of income by investing primarily in fixed-income securities of Canadian government and corporate issuers.

The Fund seeks to achieve its investment objective by investing primarily in fixed-income securities of Canadian government and corporate issuers. The Fund will invest a portion of its net assets directly in such securities, and will invest the remainder of its net assets indirectly in underlying funds that invest in such securities. Sun Life Global Investments (Canada) Inc. (the "Manager"), together with Connor, Clark & Lunn Investment Management Ltd. (the "Sub-Advisor") will actively manage the portfolio to seek to add value. The fund may also from time to time invest up to 20% of the Fund's portfolio in fixed-income securities of governments and companies outside of Canada.

Risk

There were no changes in the Fund's investment objectives or strategies during the period which materially impacted the overall level of risk in the Fund. The risks associated with investing in the Fund remain as outlined in the Fund's Simplified Prospectus.

Results of Operations

During the period, the net asset value of the Fund decreased from \$357.1 million to \$352.2 million due to net redemptions, partially offset by positive performance.

During the period, the Fund returned 5.1% for Series A units, this result lagged the Fund's benchmark, which returned 6.9%. The performance returns for other series of this Fund are similar to those of Series A except for differences in expense structures. Please refer to the 'Past Performance' section of this report for performance of each series and a definition of the benchmark and broad-based index if applicable.

The Fund maintains some exposure to global bonds to balance risk and broaden sources of return, making up 3.5% of the portfolio at year-end. Global bond holdings detracted from performance over the period, primarily driven by an underweight position in interest rate strategies.

The core Canadian bond component of the fund modestly outperformed the broader Canadian bond market. This portion of the fund remains defensively positioned, favoring active management, higher-quality bonds and liquidity in light of low additional return for taking on credit risk.

Recent Developments

The Manager announced on November 29, 2019 that it intended to separate Series O securities from the Sun Life Global Investments Private Client Program for all the mutual funds that it manages. Subsequent to the reporting period, the Manager implemented this change to the Private Client Program on February 26, 2020.

Global growth slowed through most of 2018. However, in the first half of 2019, data indicated that U.S. growth joined the rest of the world in slowing down. Moreover, trade tensions resurfaced and escalated to encompass many of the U.S.'s trading partners. In response to the mounting trade tensions, global manufacturing weakened significantly, particularly Germany, U.K., Japan and the U.S. Stimulus in China was not flowing through to broad consumer spending. As a result, central banks signaled a change in policy stance, first by halting the rate hiking campaign in December 2018, and then further pledging to bring accommodation back, if needed to sustain the recovery. Canada's growth was lackluster through the first half of the year. Global interest rates experienced sharp declines across the board, led in particular by the U.S.

Later in the year, evidence began to build that global economic activity had stopped deteriorating, following the significant amount of monetary stimulus provided by central banks. Bond yields bottomed in the third quarter, and trended higher from there. Further, trade tensions that had escalated over the year eased near the end of the year. The stabilizing economic backdrop caused longer-term bond yields to rise over the fourth quarter resulting in steeper yield curves. Corporate credit spreads reached their tightest levels of 2019, a sharp contrast to the widening seen in December 2018.

Sun Life Multi-Strategy Bond Fund

The Manager cautions that the current global uncertainty with respect to the spread of the coronavirus (COVID-19) and its effect on the broader global economy may have a significant impact to the volatility of the financial market. While the precise impact remains unknown, rapid spread of the virus may have a material adverse effect on global economic activity and disrupt global supply chains, operations, mobility of people, which could affect interest rates, credit ratings, credit risk, inflation, business, financial conditions, results of operations and other factors relevant to fund performance.

Related Party Transactions

Sun Life Global Investments (Canada) Inc. (the “Manager”) is the manager, trustee and portfolio manager of the Fund. For its services, the Manager receives a management fee that is calculated as a percentage of the average net asset value of the Fund. This fee is calculated daily and payable monthly.

The Manager is responsible for the provision of all general management and administrative services required by the Fund in its day-to-day operations, including providing or arranging for the provision of investment advice, bookkeeping, recordkeeping and other administrative services for the Fund.

As trustee, the Manager holds legal title to the Fund's investments in trust for unitholders.

As portfolio manager, the Manager is responsible for managing the investment portfolio of the Fund directly or through sub-advisors. The Manager has retained Connor, Clark & Lunn to act as a sub-advisor for a portion of the Fund. The Manager retains responsibility for investing the remainder of the portfolio in underlying funds. to act as a sub-advisor for the Fund.

The Manager is an indirect wholly owned subsidiary of Sun Life Financial Inc.

Fund Administrative Expenses

The Manager pays certain operating expenses of the Fund (the “Administration Expenses”) in return for a fixed administration fee paid to the Manager by the Fund (“Administration Fee”). The Administration Fee is based on the net asset value of each series of the Fund. The Administration Expenses include, but are not limited to, record keeper fees, accounting, audit and legal fees, bank and interest charges, safekeeping and custodial fees, taxes, administrative and systems costs, costs of reports to investors, prospectuses and other disclosure documents, regulatory filing fees (including those incurred by the Manager) and trustee fees for registered plans. The amount of this charge is disclosed as Fixed annual administration fees in the Fund's Statement of Comprehensive Income found in the annual financial statements.

The Fund also pays certain operating expenses directly (the “Fund Costs”). Fund Costs include: borrowing costs incurred by the Fund from time to time; costs in connection with portfolio transactions; fees and expenses payable to or in connection with the Fund's Independent Review Committee (“IRC”); taxes payable by the Fund; and the costs of complying with any new regulatory or legal requirement imposed on the Fund. The Fund allocates Fund Costs proportionately among each series of the Fund to which they apply. The Fund Costs that are specific to a series of securities are allocated to that series. These amounts are paid out of the assets attributed to each series of securities of the Fund, which reduces the return you may receive.

⁽¹⁾ This information is provided as at December 31 of the period shown, as applicable.

⁽²⁾ Management expense ratio is based on total expenses (excluding broker commissions and other portfolio transaction costs) including the Fund's allocated percentage of Fund-on-Funds' expenses for the stated period and is expressed as an annualized percentage of daily average Net Asset Value during the period.

⁽³⁾ The trading expense ratio represents total commissions and other portfolio transaction costs expressed as an annualized percentage of daily average Net Asset Value during the period.

⁽⁴⁾ The Fund's portfolio turnover ratio indicates how actively the Fund's portfolio manager manages its portfolio investments. A portfolio turnover ratio of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the year. The higher a Fund's portfolio turnover ratio in a year, the greater the trading costs payable by the Fund in the year, and the greater the chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a high portfolio turnover rate and the performance of the Fund.

Management Fees

The maximum annual management fee paid by the Fund is a percentage of the average daily net asset value of each series of securities of the Fund exclusive of any applicable taxes and operating expenses, which is accrued daily and is paid to the Manager monthly in arrears. Management fees pay for portfolio and investment advisory services, oversight of any service providers, marketing and promotional activities, arranging for the distribution and sale of securities of the Fund, general administration of Fund operations and sales and trailing commissions paid to dealers.

The percentages and major services paid for out of the management fees are set out below:

	As a Percentage of Management Fees		
	Maximum Annual Management Fee Rate (%)	Dealer Compensation (%) ⁽¹⁾	General Administration, Investment Advice and Profit (%)
Series A Units	1.05	39	61
Series F Units	0.55	-	100
Series I Units ⁽²⁾	-	-	-
Series O Units ⁽³⁾	0.55	-	-

⁽¹⁾ Includes sales and trailing commissions.

⁽²⁾ Series O management fees are not paid by the Fund. Series O investors pay management fees directly to the manager.

⁽³⁾ Series I management fees are not paid by the Fund. Series I investors negotiate management fees and pay directly to the manager.

Past Performance

The performance information shown assumes that all distributions made by the Fund in the periods shown were reinvested in additional securities of the Fund. The performance information does not take into account sales, redemption, distribution, other optional charges or income tax payable by any unitholder that would have reduced returns or performance. How the Fund has performed in the past does not necessarily indicate how it will perform in the future.

Year-by-Year Returns

The following bar chart shows the Fund's annual performance for the period shown. The chart shows, in percentage terms, how much an investment made on the first day of each financial year would have grown or decreased by the last day of each financial year.

Forward-Looking Statements

This management report of fund performance may contain forward-looking statements about the Fund, including its strategy, results of operations, performance and condition. Forward-looking statements include statements that are predictive in nature, or that depend upon or refer to future events or conditions. They are based on current beliefs, expectations and projections about future events and are inherently subject to, among other things, risks, uncertainties and assumptions about the Fund and various economic factors. Many factors could cause the Fund's actual results, performance or achievements to be materially different from any future results, performance or achievements that may be expressed or implied by such forward-looking statements. These factors could include, among other things, general economic, political and market factors, including interest and foreign exchange rates, business competition, technological changes, changes in government regulations or in tax laws. Although the forward-looking statements contained in this report are based upon what management currently believes to be reasonable assumptions, the Manager cannot assure current or prospective investors that actual results, performance or achievements will be consistent with these forward-looking statements. The words "may", "could", "would", "should", "believe", "plan", "anticipate", "expect", "intend", "forecast", "objective", and similar expressions are intended to identify forward-looking statements. The Manager does not undertake any obligation to update or revise any forward-looking statements to reflect events or circumstances after the date of this document or to reflect new information or the occurrence of unanticipated events, except as required by law.
