## MANAGEMENT DISCUSSION OF FUND PERFORMANCE

### Investment Objectives and Strategies

The Sun Life Schroder Global Mid Cap Fund (the "Fund") seeks to achieve long-term capital appreciation primarily by investing directly in a diversified portfolio of medium capitalization global companies or indirectly by investing in mutual funds including exchange-traded funds that invest in such securities.

The Fund's sub-advisor is Schroder Investment Management North America Inc. (the "Sub-Advisor"). In pursuing the Fund's investment objectives, the Sub-Advisor invests primarily in the equity securities of medium capitalization global companies and, to a lesser extent, equity securities of small and large capitalization global companies. The Sub-Advisor focuses on identifying companies with superior growth prospects, while remaining cognizant of valuations and uses a combination of quantitative and fundamental models, seeking to add value from country decisions and stock selection.

### Risk

There were no changes in the Fund's investment objectives or strategies during the period which materially impacted the overall level of risk in the Fund. The risks associated with investing in the Fund remain as outlined in the Fund's Simplified Prospectus.

As at December 31, 2023, the majority of the Fund's investments are considered readily realizable and highly liquid; therefore, the Fund's liquidity risk is considered minimal.

### Results of Operations

During the period, the net asset value of the Fund decreased from \$1.0 billion to \$875.3 million due to negative net sales, partially offset by positive performance.

During the period, the Fund returned 5.7% for Series A securities, this result lagged the Fund's benchmark, MSCI World Small Cap Index C\$, which returned 12.7%. Please refer to the 'Past Performance' section of this report for performance of each series.

After a volatile 2022 which saw equity markets worldwide suffer meaningful declines, global equity markets rebounded strongly over the period. Investor sentiment turned positive with many equity investors shrugging off interest rate hikes and fears of bank runs/failures, seemingly envisioning a scenario where central banks successfully tame inflation with only modest slowing in economic growth, corporate earnings and employment.

Over the period, monetary policy actions by central banks worked as expected to slow economic activity and ease inflationary pressures. Inflation continues, however, to remain persistently high. Central banks have continued to signal their commitment to restore price stability by warning that further increases in interest rates may still be necessary. The U.S. Federal Reserve Board raised interest rates by a cumulative 1.00 percentage points over the period. Meanwhile, the Bank of Canada raised rates by a cumulative 0.75 percentage points. As the year ended, there appears to be increasing expectations for leading central banks to pivot from rate hikes to rate cuts some time in 2024.

Geopolitical tensions continued to make headlines over the period. As the Russia-Ukraine military conflict continues, the longer-term geopolitical consequences and risks remain poorly understood beyond near-term vulnerabilities in energy and food security. The impact of sanctions applied on Russia has reconfigured global supply chains and increases operational complexity for companies with international operations. In October 2023, the Israel-Palestine conflict reignited and while its impact on global markets appears to be muted thus far, there is potential for the conflict to escalate which may impact energy prices and disrupt global shipping routes.

Equity markets rebounded sharply from 2022 buoyed by optimistic investor expectations, especially in artificial intelligence (AI) with the so-called "Magnificent 7" mega-cap technology-oriented stocks leading the way. Investors have seemingly overlooked the factors that weighed on markets last year, namely the Russia-Ukraine conflict, COVID-19-related supply chain disruptions, falling global demand and hawkish monetary policies. Among equities, the Information Technology sector has been among the leading performers driven by optimism in AI-related innovation.

---

Stock selection in Industrials and Information Technology was a detractor from performance. An overweight position in WNS holdings Ltd, a business process management company detracted from performance. Despite strong financials and growth prospect the stock come under some selling pressure during the reporting period as fears of a global recession raised concerns on the short-term growth prospects of the sectors and higher input costs reduced the profit margins of the firm in the first quarter. Subsequently in the second quarter, WNS reduced its adjusted revenue growth guidance for the full year to 8% to 12%, down from previous guidance of 12% to 17%, resulting in its share prices dropping further. An overweight position in Barco Nv, a Belgian technology company that specializes in digital projection and imaging technology, detracted from performance. Shares of Barco performed poorly during the reporting period due to reduced healthcare spending in the US and poor recovery in the Chinese healthcare sector.

An overweight position in Information technology was a contributor to performance. Technology stocks were the top performers over the reporting period. Advancements in artificial intelligence applications and the anticipation of further developments in this emerging technology primarily drove the performance of the sector.

## Recent Developments

The composition of the Fund's independent review committee ("IRC") changed during the period. André Fok Kam completed his term and Ann David was appointed effective July 1, 2023.

Global tensions and conflicts within some geographic regions, such as the ongoing military conflict in Ukraine, have continued to impact global markets and economies. In addition, there continues to be tensions between larger nations over a number of issues, including trade, technology, human rights, and sovereignty. These issues have, in some cases, resulted in government sanctions and trade restrictions. These global tensions and regional conflicts, documented in the media, create a more challenging operating environment. The longer-term impact to geopolitical norms, supply chains and investment valuations is uncertain. The Manager continues to watch for developments and assess the impact to investment strategies.

## Related Party Transactions

SLGI Asset Management Inc. is the manager, trustee and portfolio manager of the Fund. For its services, the Manager receives a management fee that is calculated as a percentage of the average net asset value of the Fund. This fee is calculated daily and payable monthly.

The Manager is responsible for the provision of all general management and administrative services required by the Fund in its day-to-day operations, including providing or arranging for the provision of investment advice, bookkeeping, recordkeeping and other administrative services for the Fund.

As trustee, the Manager holds legal title to the Fund's investments in trust for securityholders.

As portfolio manager, the Manager is responsible for managing the investment portfolio of the Fund directly or through sub-advisors. The Manager has retained Schroder Investment Management North America Inc. to act as a sub-advisor for the Fund.

The Fund may have direct or indirect holdings in Sun Life Financial Inc. or its affiliates or other funds managed by the Manager or its affiliates. Funds managed by the Manager, or its affiliates, may invest in securities of the Fund.

The Manager has a distribution agreement with Sun Life Financial Investment Services (Canada) Inc. (the "Dealer"), a company under common control, under which the Dealer may distribute securities of the funds offered by the Manager in the jurisdictions in which the Dealer is so authorized.

## Fund Administrative Expenses

The Manager pays certain operating expenses of the Fund (the "Administration Expenses") in return for a fixed administration fee paid to the Manager by the Fund ("Administration Fee"). The Administration Fee is based on the net asset value of each series of securities of the Fund. The Administration Expenses include, but are not limited to, record keeper fees, accounting, audit and legal fees, bank and interest charges, safekeeping and custodial fees, taxes, administrative and systems costs, costs of reports to investors, prospectuses and other disclosure documents, regulatory filing fees (including any regulatory fees and expenses payable by the Manager) and trustee fees for registered plans. The amount of this charge is disclosed as Fixed annual administration fees in the Fund's Statements of Comprehensive Income found in the annual financial statements.

# Sun Life Schroder Global Mid Cap Fund

The Fund also pays certain operating expenses directly (the "Fund Costs"). Fund Costs include: borrowing costs incurred by the Fund from time to time; costs in connection with portfolio transactions; fees and expenses payable to or in connection with the IRC; taxes payable by the Fund; contingent fees for foreign tax reclaim filings; and the costs of complying with any new regulatory or legal requirement imposed on the Fund. The Fund allocates Fund Costs proportionately among each series of securities of the Fund to which they apply. The Fund Costs that are specific to a series of securities are allocated to that series. These amounts are paid out of the assets attributed to each series of securities of the Fund, which reduces the return you may receive.

Fees and expenses payable to or in connection with the IRC are allocated to the fund and series to which they apply in a manner that, in the Manager's view, is considered fair and reasonable. The amounts of these charges are disclosed in the line item "Independent review committee fees" in the Fund's Statements of Comprehensive Income (Loss).

## Financial Highlights

<sup>(1)</sup> This information is provided as at December 31 of the period shown, as applicable.

<sup>(2)</sup> Management expense ratio is based on total expenses (excluding broker commissions and other portfolio transaction costs) including the Fund's allocated percentage of Fund-on-Funds' expenses for the stated period and is expressed as an annualized percentage of daily average Net Asset Value during the period.

<sup>(3)</sup> The trading expense ratio represents total commissions and other portfolio transaction costs expressed as an annualized percentage of daily average Net Asset Value during the period.

<sup>(4)</sup> The Fund's portfolio turnover ratio indicates how actively the Fund's portfolio manager manages its portfolio investments. A portfolio turnover ratio of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the year. The higher a Fund's portfolio turnover ratio in a year, the greater the trading costs payable by the Fund in the year, and the greater the chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a high portfolio turnover rate and the performance of the Fund.

## Management Fees

The maximum annual management fee paid by the Fund is a percentage of the average daily net asset value of each series of securities of the Fund exclusive of any applicable taxes and operating expenses, which is accrued daily and is paid to the Manager monthly in arrears. Management fees pay for portfolio and investment advisory services, oversight of any service providers, marketing and promotional activities, arranging for the distribution and sale of securities of the Fund, general administration of Fund operations and sales and trailing commissions paid to dealers.

# Sun Life Schroder Global Mid Cap Fund

The percentages and major services paid for out of the management fees are set out below:

	Maximum Annual Management Fee Rate (%)	As a Percentage of Management Fees	
		Dealer Compensation (%) <sup>(*)</sup>	General Administration, Investment Advice and Profit (%)
Series A Securities	1.95	46	54
Series T8 Securities	1.95	46	54
Series F Securities	0.95	-	100
Series I Securities <sup>(#)</sup>	-	-	100
Series O Securities <sup>(†)</sup>	0.95	-	100

(\*) Includes sales and trailing commissions.

(†) Series O management fees are not paid by the Fund. Series O investors pay management fees directly to the Manager.

(#) Series I management fees are not paid by the Fund. Series I investors negotiate management fees and pay directly to the Manager.

## Past Performance

The performance information shown assumes that all distributions made by the Fund in the periods shown were reinvested in additional securities of the Fund. The performance information does not take into account sales, redemption, distribution, other optional charges or income tax payable by any securityholder that would have reduced returns or performance. How the Fund has performed in the past does not necessarily indicate how it will perform in the future.

## Year-by-Year Returns

The following bar chart shows the Fund's annual performance for the period shown. The chart shows, in percentage terms, how much an investment made on the first day of each financial year would have grown or decreased by the last day of each financial year.

## Forward-Looking Statements

*This management report of fund performance may contain forward-looking statements about the Fund, including its strategies, results of operations, performance and condition. Forward-looking statements include statements that are predictive in nature, or that depend upon or refer to future events or conditions. They are based on current beliefs, expectations and projections about future events and are inherently subject to, among other things, risks, uncertainties and assumptions about the Fund and various economic factors. Many factors could cause the Fund's actual results, performance or achievements to be materially different from any future results, performance or achievements that may be expressed or implied by such forward-looking statements. These factors could include, among other things, general economic, political and market factors, including interest and foreign exchange rates, business competition, technological changes, changes in government regulations or in tax laws and pandemics. Although the forward-looking statements contained in this report are based upon what management currently believes to be reasonable assumptions, the Manager cannot assure current or prospective investors that actual results, performance or achievements will be consistent with these forward-looking statements. The words "may", "could", "would", "should", "believe", "plan", "anticipate", "expect", "intend", "forecast", "objective", and similar expressions are intended to identify forward-looking statements. The Manager does not undertake any obligation to update or revise any forward-looking statements to reflect events or circumstances after the date of this document or to reflect new information or the occurrence of unanticipated events, except as required by law.*
