MANAGEMENT DISCUSSION OF FUND PERFORMANCE

Results of Operations

During the period, the net asset value of the Sun Life Money Market Fund (the "Fund") increased from \$2.4 billion to \$2.5 billion due to positive net sales, as well as positive performance.

During the first half of the year, inflation has showed signs of improvement. Despite an unexpected jump in May, headline Consumer Price Index (CPI) in Canada has been within the Bank of Canada's (BoC) target range of 1% to 3%. This has translated into increased confidence for the BoC that inflation was on a path back down to 2%. As a result, after being on pause for nearly a year, the BoC delivered its first rate cut in over four years in early June, becoming the first G7 central bank to do so in this cycle. The overnight rate was reduced by a quarter of a percent to 4.75%. On the growth front, after stagnant GDP growth for much of the second half of 2023, growth resumed in the first quarter of 2024 with real GDP advancing by 1.7% annualized. With the BoC cutting rates in June, monetary policy has turned a corner, but interest rates remained restrictive, which continued to negatively impact consumption as high borrowing costs and mortgage renewals weighed on disposable incomes.

Canadian short-term government bond yields (less than 1 year investment time frame) decreased in the reporting period, while yields across the rest of the curve increased. Falling short-term yields led to a strong return for the FTSE Canada 91-Day T-Bill Index, with the index returning 2.55%. With the move in yields, the 2- to 10-year curve steepened but remained inverted, as it has been for the last two years. Meanwhile, Canadian investment-grade spreads, as represented by the Bloomberg Canada Aggregate Corporate Index, decreased by just 12 basis points, leading to the outperformance of corporate bonds. Spreads finished the quarter at 120 bps, which is just below the 10-year average level. Flows remained positive and appetite for credit was strong, underpinned by attractive yields and sound fundamentals, supporting a stable carry environment.

During the first quarter, the portfolio's exposure to longer dated securities that were 6 months and greater hurt performance, given an inverted yield curve and front-end yields that rose in response to diminishing rate cut expectations for the year.

During the second quarter, the portfolio's focus on longer dated securities that were 6 months and greater helped performance, with rates falling as the BoC embarked on their rate-cutting cycle. Ongoing exposure to provincial and commercial paper contributed positively to performance given the incremental yield pick-up.

Recent Developments

Global tensions and conflicts within some geographic regions, such as the ongoing military conflict in Ukraine, have continued to impact global markets and economies. In addition, there continue to be tensions between larger nations over a number of issues, including trade, technology, human rights, and sovereignty. These issues have, in some cases, resulted in government sanctions and trade restrictions. These global tensions and regional conflicts, documented in the media, create a more challenging operating environment. The longer-term impact to geopolitical norms, supply chains and investment valuations is uncertain. The Manager continues to watch for developments and assess the impact to investment strategies.

Related Party Transactions

SLGI Asset Management Inc. is the manager, trustee and portfolio manager of the Fund. For its services, the Manager receives a management fee that is calculated as a percentage of the average net asset value of the Fund. This fee is calculated daily and payable monthly.

The Manager is responsible for the provision of all general management and administrative services required by the Fund in its day-to-day operations, including providing or arranging for the provision of investment advice, bookkeeping, recordkeeping and other administrative services for the Fund.

As trustee, the Manager holds legal title to the Fund's investments in trust for securityholders.

Sun Life Money Market Fund

As portfolio manager, the Manager is responsible for managing the investment portfolio of the Fund directly or through sub-advisors. The Manager has retained MFS Investment Management Canada Limited ("MFS IMC"), an affiliate of the Manager, to act as a sub-advisor for the Fund. Sun Life Financial Inc. has an indirect majority ownership interest in MFS IMC.

The Fund may have direct or indirect holdings in Sun Life Financial Inc. or its affiliates or other funds managed by the Manager or its affiliates. Funds managed by the Manager, or its affiliates, may invest in securities of the Fund.

The Manager has a distribution agreement with Sun Life Financial Investment Services (Canada) Inc. (the "Dealer"), a company under common control, under which the Dealer may distribute securities of the funds offered by the Manager in the jurisdictions in which the Dealer is so authorized.

Fund Administrative Expenses

The Manager pays certain operating expenses of the Fund (the "Administration Expenses") in return for a fixed administration fee paid to the Manager by the Fund ("Administration Fee"). The Administration Fee is based on the net asset value of each series of securities of the Fund. The Administration Expenses include, but are not limited to, record keeper fees, accounting, audit and legal fees, bank and interest charges, safekeeping and custodial fees, taxes, administrative and systems costs, costs of reports to investors, prospectuses and other disclosure documents, regulatory filing fees (including those incurred by the Manager) and trustee fees for registered plans. The amount of this charge is disclosed as Fixed annual administration fees in the Fund's Statements of Comprehensive Income found in the semi-annual financial statements (unaudited).

The Fund also pays certain operating expenses directly (the "Fund Costs"). Fund Costs include: borrowing costs incurred by the Fund from time to time; costs in connection with portfolio transactions; fees and expenses payable to or in connection with the Independent Review Committee ("IRC"); taxes payable by the Fund; contingent fees for foreign tax reclaim filings; and the costs of complying with any new regulatory or legal requirement imposed on the Fund. The Fund allocates Fund Costs proportionately among each series of securities of the Fund to which they apply. The Fund Costs that are specific to a series of securities are allocated to that series. These amounts are paid out of the assets attributed to each series of securities of the Fund, which reduces the return you may receive.

Fees and expenses payable to or in connection with the Independent Review Committee ("IRC") are allocated to the fund and series to which they apply in a manner that, in the Manager's view, is considered fair and reasonable. For the purpose of allocating IRC costs across the Funds, the Manager distinguishes between two categories of Funds: Funds that are structured as fund of funds and Funds that hold direct investments. The Manager has determined that, based on the complexity of the issues to be reviewed by the IRC for the Funds in each category, it is appropriate for the Funds that are structured as fund of funds to be allocated a lesser proportion of IRC costs than Funds that hold direct investments. The Manager first attributes IRC costs to each such category of Funds, and then allocates such costs equally between the Funds in each category. The amounts of these charges are disclosed in the line item "Independent review committee fees" in the Fund's Statements of Comprehensive Income (Loss).

Forward-Looking Statements

This management report of fund performance may contain forward-looking statements about the Fund, including its strategies, results of operations, performance and condition. Forward-looking statements include statements that are predictive in nature, or that depend upon or refer to future events or conditions. They are based on current beliefs, expectations and projections about future events and are inherently subject to, among other things, risks, uncertainties and assumptions about the Fund and various economic factors. Many factors could cause the Fund's actual results, performance or achievements to be materially different from any future results, performance or achievements that may be expressed or implied by such forward-looking statements. These factors could include, among other things, general economic, political and market factors, including interest and foreign exchange rates, business competition, technological changes, changes in government regulations or in tax laws and pandemics. Although the forward-looking statements contained in this report are based upon what management currently believes to be reasonable assumptions, the Manager cannot assure current or prospective investors that actual results, performance or achievements will be consistent with these forward-looking statements. The words "may", "could", "would", "should", "believe", "plan", "anticipate", "expect", "intend", "forecast", "objective", and similar expressions are intended to identify forward-looking statements. The Manager does not undertake any obligation to update or revise any forward-looking statements to reflect events or circumstances after the date of this document or to reflect new information or the occurrence of unanticipated events, except as required by law.
