INTERIM MANAGEMENT REPORT OF FUND PERFORMANCE

for the period ended June 30, 2026

Sun Life State Street Emerging Markets Equity Index Fund

Sun Life State Street Emerging Markets Equity Index Fund

This interim management report of fund performance contains financial highlights but does not contain the complete financial statements of the investment fund. You can request a free copy of the semi-annual financial statements (unaudited) by calling 1-877-344-1434, by sending an email to us at info@sunlifeglobalinvestments.com or by writing to us at SLGI Asset Management Inc., 1 York Street, Suite 3300, Toronto, Ontario, M5J 0B6. The financial statements are available on our website at www.sunlifeglobalinvestments.com and on SEDAR+ at www.sedarplus.ca.

Securityholders may also contact us using one of these methods to request a copy of the investment fund's proxy voting policies and procedures, proxy voting disclosure record or quarterly portfolio disclosure.

SLGI Asset Management Inc. (the "Manager") is an indirect wholly owned subsidiary of Sun Life Financial Inc.

MANAGEMENT DISCUSSION OF FUND PERFORMANCE

Results of Operations

During the period, the net asset value of the Sun Life State Street Emerging Markets Equity Index Fund (the "Fund") increased from \$0.0 million to \$171.8 million due to positive net sales, as well as positive performance.

During the period, the Fund returned 22.0% for Series I securities, this result lagged the Fund's benchmark, MSCI Emerging Markets Index C\$, which returned 26.1%. Please refer to the 'Past Performance' section of this report for performance of each series of securities of the Fund.

Emerging Markets (EM) experienced a mixed first half of 2026, with modest weakness in the first quarter followed by a strong recovery in the second quarter. Overall performance was shaped primarily by developments in technology-oriented North Asian markets, particularly Taiwan and Korea, while regional geopolitical events and commodity price movements influenced broader market sentiment.

During the first quarter, Taiwan and Korea benefited from continued demand for artificial intelligence ("AI")-related technologies and a weaker U.S. dollar, although gains were partially reversed in March as the Middle East conflict increased energy prices, disrupted supply chains, and weighed on risk sentiment. Latin American markets, including Colombia, Brazil and Peru, also delivered strong performance, while India and China lagged.

Market conditions improved significantly in the second quarter as concerns over the broader impact of the Middle East conflict eased and a U.S.-Iran peace agreement helped reduce geopolitical uncertainty. Korea and Taiwan led EM returns, supported by strong earnings and continued strength in semiconductor, memory and AI-related companies. Market leadership became increasingly concentrated within a narrow group of technology beneficiaries. Elsewhere, performance was more varied, with several markets posting positive returns but trailing the broader EM index, while South Africa, Brazil and Indonesia faced market-specific challenges.

This Fund was launched on April 1, 2026. The following commentary is for the period since the Fund's inception to June 30, 2026.

The Fund underperformed its benchmark since the fund launch. The difference was primarily attributable to the Fund's recent launch and the transition of its initial holdings into the constituent securities of the benchmark index. This transition activity created a temporary tracking difference during the reporting period.

Recent Developments

The Sun Life State Street Emerging Markets Equity Index Fund was launched on April 1, 2026. Series I securities of the Fund became available on that date.

Global tensions and conflicts within some geographic regions have continued to impact global markets and economies. In addition, there continue to be tensions between larger nations over a number of issues, including trade, technology, human rights, and sovereignty. These issues have, in some cases, resulted in government sanctions and trade restrictions. These global tensions and regional conflicts, documented in the media, create a more challenging operating environment. The longer-term impact to geopolitical norms, supply chains and investment valuations is uncertain. The Manager continues to watch for developments and assess the impact to investment strategies.

Related Party Transactions

SLGI Asset Management Inc. is the manager, trustee and portfolio manager of the Fund. For its services, the Manager receives a management fee that is calculated as a percentage of the average net asset value of the Fund. This fee is calculated daily and payable monthly.

The Manager is responsible for the provision of all general management and administrative services required by the Fund in its day-to-day operations, including providing or arranging for the provision of investment advice, bookkeeping, recordkeeping and other administrative services for the Fund.

As trustee, the Manager holds legal title to the Fund's investments in trust for securityholders.

Sun Life State Street Emerging Markets Equity Index Fund

As portfolio manager, the Manager is responsible for managing the investment portfolio of the Fund directly or through sub-advisors. The Manager has retained State Street Global Advisors, Ltd. to act as a sub-advisor for the Fund.

The Fund may have direct or indirect holdings in Sun Life Financial Inc. or its affiliates or other funds managed by the Manager or its affiliates. Funds managed by the Manager, or its affiliates, may invest in securities of the Fund.

The Manager has a distribution agreement with Sun Life Financial Investment Services (Canada) Inc. (the "Dealer"), a company under common control, under which the Dealer may distribute securities of the funds offered by the Manager in the jurisdictions in which the Dealer is so authorized.

Fund Administrative Expenses

The Manager pays certain operating expenses of the Fund (the "Administration Expenses") in return for a fixed administration fee paid to the Manager by the Fund ("Administration Fee"). The Administration Fee is based on the net asset value of each series of securities of the Fund. The Administration Expenses include, but are not limited to, record keeper fees, accounting, audit and legal fees, bank and interest charges, safekeeping and custodial fees, taxes, administrative and systems costs, costs of reports to investors, prospectuses and other disclosure documents, regulatory filing fees (including those incurred by the Manager), trustee fees for registered plans and ETF Series securities listing fees. The amount of this charge is disclosed as Fixed annual administration fees in the Fund's Statements of Comprehensive Income found in the semi-annual financial statements (unaudited).

The Fund also pays certain operating expenses directly (the "Fund Costs"). Fund Costs include: borrowing costs incurred by the Fund from time to time; costs in connection with portfolio transactions; fees and expenses payable to or in connection with the Independent Review Committee ("IRC"); taxes payable by the Fund; contingent fees for foreign tax reclaim filings; and the costs of complying with any new regulatory or legal requirement imposed on the Fund. The Fund allocates Fund Costs proportionately among each series of securities of the Fund to which they apply. The Fund Costs that are specific to a series of securities are allocated to that series. These amounts are paid out of the assets attributed to each series of securities of the Fund, which reduces the return you may receive.

Fees and expenses payable to or in connection with the IRC are allocated to the fund and series to which they apply in a manner that, in the Manager's view, is considered fair and reasonable. For the purpose of allocating IRC costs across the Funds, the Manager distinguishes between two categories of Funds: Funds that are structured as fund of funds and Funds that hold direct investments. The Manager has determined that, based on the complexity of the issues to be reviewed by the IRC for the Funds in each category, it is appropriate for the Funds that are structured as fund of funds to be allocated a lesser proportion of IRC costs than Funds that hold direct investments. The Manager first attributes IRC costs to each such category of Funds, and then allocates such costs equally between the Funds in each category. The amounts of these charges are disclosed in the line item "Independent review committee fees" in the Fund's Statements of Comprehensive Income (Loss).

Financial Highlights

The following tables show selected key financial information about the Fund and are intended to help you understand the Fund's financial performance for the previous five years or for the period(s) since inception to June 30, 2026.

The Fund's Net Asset Value per Security (\$) ⁽¹⁾

Sun Life State Street Emerging Markets Equity Index Fund - Series I

	2026 (\$)
Net asset value, beginning of period	10.00
Increase (decrease) from operations:	
Total revenue	0.06
Total expenses	(0.02)
Realized gains (losses) for the period	1.07
Unrealized gains (losses) for the period	1.11
Total increase (decrease) from operations⁽²⁾	2.22
Distributions:	
From income (excluding dividends)	-
From dividends	-
From capital gains	-
Return of capital	-
Total annual distributions⁽³⁾	-
Net asset value, end of period	12.20

⁽¹⁾ This information is derived from the Fund's semi-annual unaudited financial statements for the current period ended June 30, 2026.

⁽²⁾ Net Assets and distributions are based on the actual number of securities outstanding at the relevant time. The increase/decrease from operations is based on the weighted average number of securities outstanding over the financial period.

⁽³⁾ Distributions were paid in cash, reinvested in additional securities of the Fund, or both.

Sun Life State Street Emerging Markets Equity Index Fund

Ratios and Supplemental Data

Sun Life State Street Emerging Markets Equity Index Fund - Series I

	2026
Total net asset value (\$000s) ⁽¹⁾	171,811
Number of securities outstanding (000s) ⁽¹⁾	14,079
Management expense ratio (%)	0.24
Management expense ratio before waivers or absorption (%) ⁽²⁾	0.24
Trading expense ratio (%) ⁽³⁾	0.48
Portfolio turnover rate (%) ⁽⁴⁾	148.40
Net asset value per security (\$) ⁽¹⁾	12.20

⁽¹⁾ This information is provided as at June 30, 2026.

⁽²⁾ Management expense ratio is based on total expenses (excluding broker commissions and other portfolio transaction costs) including the Fund's allocated percentage of Fund-on-Funds' expenses for the stated period and is expressed as an annualized percentage of daily average Net Asset Value during the period.

⁽³⁾ The trading expense ratio represents total commissions and other portfolio transaction costs expressed as an annualized percentage of daily average Net Asset Value during the period.

⁽⁴⁾ The Fund's portfolio turnover ratio indicates how actively the Fund's portfolio manager manages its portfolio investments. A portfolio turnover ratio of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the year. The higher a Fund's portfolio turnover ratio in a year, the greater the trading costs payable by the Fund in the year, and the greater the chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a high portfolio turnover rate and the performance of the Fund.

Management Fees

The maximum annual management fee paid by the Fund is a percentage of the average daily net asset value of each series of securities of the Fund exclusive of any applicable taxes and operating expenses, which is accrued daily and is paid to the Manager monthly in arrears. Management fees pay for portfolio and investment advisory services, oversight of any service providers, marketing and promotional activities, arranging for the distribution and sale of securities of the Fund, general administration of Fund operations and sales and trailing commissions paid to dealers.

Series I management fees are not paid by the Fund. Series I investors negotiate management fees and pay directly to the Manager.

Past Performance

The performance information shown assumes that all distributions made by the Fund in the periods shown were reinvested in additional securities of the Fund. The performance information does not take into account sales, redemption, distribution, other optional charges or income tax payable by any securityholder that would have reduced returns or performance. How the Fund has performed in the past does not necessarily indicate how it will perform in the future.

Year-by-Year Returns

The following bar chart shows the Fund's annual performance for the period shown. The chart shows, in percentage terms, how much an investment made on the first day of each financial year would have grown or decreased by the last day of each period.

Series I Securities – Annual return for the periods ended December 31 and the six month period ended June 30, 2026

Forward-Looking Statements

This management report of fund performance may contain forward-looking statements about the Fund, including its strategies, results of operations, performance and condition. Forward-looking statements include statements that are predictive in nature, or that depend upon or refer to future events or conditions. They are based on current beliefs, expectations and projections about future events and are inherently subject to, among other things, risks, uncertainties and assumptions about the Fund and various economic factors. Many factors could cause the Fund's actual results, performance or achievements to be materially different from any future results, performance or achievements that may be expressed or implied by such forward-looking statements. These factors could include, among other things, general economic, political and market factors, including interest and foreign exchange rates, business competition, technological changes, changes in government regulations or in tax laws and pandemics. Although the forward-looking statements contained in this report are based upon what management currently believes to be reasonable assumptions, the Manager cannot assure current or prospective investors that actual results, performance or achievements will be consistent with these forward-looking statements. The words "may", "could", "would", "should", "believe", "plan", "anticipate", "expect", "intend", "forecast", "objective", and similar expressions are intended to identify forward-looking statements. The Manager does not undertake any obligation to update or revise any forward-looking statements to reflect events or circumstances after the date of this document or to reflect new information or the occurrence of unanticipated events, except as required by law.
