## MANAGEMENT DISCUSSION OF FUND PERFORMANCE

### Results of Operations

During the period, the net asset value of the Sun Life Tactical Balanced ETF Portfolio (the "Fund") decreased from \$108.9 million to \$94.9 million due to negative net sales, partially offset by positive performance.

During the period, the Fund returned 5.0% for Series A securities, this result lagged the Fund's blended benchmark, 2.5% FTSE Canada 91 Day T-Bill Index, 21.5% FTSE Canada Universe Bond Index, 16.0% Bloomberg Barclays Global Aggregate Bond Index Hedged C\$, 19.0% S&P/TSX Capped Composite Index, 41.0% MSCI World Index C\$, which returned 7.5%. The broad-based index 1, MSCI World Index C\$, returned 16.0% and the broad-based index 2, Bloomberg Barclays Global Aggregate Bond Index C\$, returned 0.5%. We have included the returns of the broad-based index to help you understand how the Fund performed compared to the general market. We have also included the returns for the Fund's blended benchmark, which more closely reflects the market sectors and/or asset classes in which the Fund invests, to provide another comparison to the performance of the Fund. Please refer to the 'Past Performance' section of this report for performance of each series of securities of the Fund.

The Fund underperformed its broad-based index 1 due to the Fund's higher exposure to fixed income. Fixed income underperformed equities during the reporting period. The Fund outperformed its broad-based index 2 due to its higher exposure to equities. Equities outperformed fixed income during the reporting period.

During the reporting period, global stock markets advanced amid a resilient US economy and the ongoing enthusiasm around artificial intelligence. The general expectation of interest rate cuts also contributed to the market rally despite the slower pace of cuts relative to what the market had hoped for at the turn of this year. The US stock market advanced during the reporting period, supported by well-received corporate earnings and ongoing expectations of rate cuts later in the year. In Europe, the financial markets posted a strong gain and economic momentum remained positive as the effects of the cost-of-living shock continued to abate. The consequence of the continued economic growth was sticky inflation. Investors' worries of an overheated economy proved overdone in Q1, but services inflation remained above levels that are consistent with central bank targets.

Against this resilient backdrop, developed market equities delivered positive total returns. These returns were concentrated in larger companies, while rate sensitive small cap stocks and Real Estate Investment Trusts (REITS) suffered from confirmation of the higher-for-longer interest rate environment. The Information Technology sector led the charge amid ongoing optimism over demand for AI-related technologies. Other top gaining sectors included Financials, Consumer Discretionary and Industrials. Improvements in the economic outlook boosted more economically sensitive stocks while banks were supported by some announcements of improvements to shareholder returns. Utilities, Consumer Staples and Real Estate were the main laggards. The Chinese stocks ended the first half of the year positive as foreign investors remained cautious about the state of China's post-pandemic economic recovery.

The beginning of 2024 saw a significant shift in the outlook of inflation and interest rate expectations. Initially, the fixed income markets anticipated faster central bank action to lower interest rates. However, expectations were scaled back as inflation remained elevated in major economies like the U.S and the Eurozone. Both the regions initially reported inflation rates exceeding forecasts, raising alarms about the enduring nature of service sector inflation.

During the period, Bank of Japan was an exception among developed economies as it increased interest rates for the first time in 17 years, signalling an end to negative interest rates. While most central banks remained cautious initially, the Swiss National Bank was the first to cut interest rates. While the Federal Reserve kept rates unchanged, the Bank of Canada (the "BOC") cut its overnight interest rates to 4.75%, down from 5%. The European Central Bank (the "ECB") also reduced interest rates in June as inflation declined significantly during the first half of the year and economic data began to show weakness. Bond yields dropped in response to the interest rate cut by the BOC and the ECB leading to positive returns.

Across Emerging Markets, fixed income returns from hard currency and local currency bonds were positive for the period and outperformed. Emerging markets central banks led with interest cuts as they benefitted from lower levels of inflation compared to developed economies. High yield bonds outperformed investment grade bonds during the period. Investment grade bonds are the highest quality bonds as determined by a credit rating agency; high yield bonds are more speculative, with a credit rating below investment grade. Strong U.S. economic growth and lower default rates helped high yield bonds to outperform.

An overweight allocation to Cash detracted from performance. Cash underperformed equities during the period. An underweight allocation to high yield bonds detracted from performance. High yield bonds outperformed other bonds due to higher income and lower spreads. A spread is the difference in yield between a Treasury bond and another debt security of the same maturity but different credit quality. An overweight allocation to U.S. bonds detracted from performance. U.S. bonds underperformed due to rising bond yields during the period.

An underweight allocation to bonds contributed to performance. Bonds underperformed equities during the period.

## Recent Developments

Global tensions and conflicts within some geographic regions, such as the ongoing military conflict in Ukraine, have continued to impact global markets and economies. In addition, there continue to be tensions between larger nations over a number of issues, including trade, technology, human rights, and sovereignty. These issues have, in some cases, resulted in government sanctions and trade restrictions. These global tensions and regional conflicts, documented in the media, create a more challenging operating environment. The longer-term impact to geopolitical norms, supply chains and investment valuations is uncertain. The Manager continues to watch for developments and assess the impact to investment strategies.

## Related Party Transactions

SLGI Asset Management Inc. is the manager, trustee and portfolio manager of the Fund. For its services, the Manager receives a management fee that is calculated as a percentage of the average net asset value of the Fund. This fee is calculated daily and payable monthly.

The Manager is responsible for the provision of all general management and administrative services required by the Fund in its day-to-day operations, including providing or arranging for the provision of investment advice, bookkeeping, recordkeeping and other administrative services for the Fund.

As trustee, the Manager holds legal title to the Fund's investments in trust for securityholders.

The Fund may have direct or indirect holdings in Sun Life Financial Inc. or its affiliates or other funds managed by the Manager or its affiliates. Funds managed by the Manager, or its affiliates, may invest in securities of the Fund.

The Manager has a distribution agreement with Sun Life Financial Investment Services (Canada) Inc. ("SLFISI") under which SLFISI may distribute the funds offered by the Manager in the jurisdictions in which SLFISI is so authorized. The Manager has appointed SLFISI through its business division Prospr by Sun Life™ ("Prospr"), SLFISI's digital platform, as the sole and exclusive distributor of Series P securities of the Fund. Prospr is a business division and trade name of SLFISI and Sun Life Financial Distributors (Canada) Inc., both of which are wholly-owned (indirectly) by Sun Life Financial Inc., the parent company of the Manager. SLFISI is an affiliate of the Manager.

## Fund Administrative Expenses

The Manager pays certain operating expenses of the Fund (the "Administration Expenses") in return for a fixed administration fee paid to the Manager by the Fund ("Administration Fee"). The Administration Fee is based on the net asset value of each series of securities of the Fund. The Administration Expenses include, but are not limited to, record keeper fees, accounting, audit and legal fees, bank and interest charges, safekeeping and custodial fees, taxes, administrative and systems costs, costs of reports to investors, prospectuses and other disclosure documents, regulatory filing fees (including those incurred by the Manager) and trustee fees for registered plans. The amount of this charge is disclosed as Fixed annual administration fees in the Fund's Statements of Comprehensive Income found in the semi-annual financial statements (unaudited).

# Sun Life Tactical Balanced ETF Portfolio

The Fund also pays certain operating expenses directly (the "Fund Costs"). Fund Costs include: borrowing costs incurred by the Fund from time to time; costs in connection with portfolio transactions; fees and expenses payable to or in connection with the Independent Review Committee ("IRC"); taxes payable by the Fund; contingent fees for foreign tax reclaim filings; and the costs of complying with any new regulatory or legal requirement imposed on the Fund. The Fund allocates Fund Costs proportionately among each series of securities of the Fund to which they apply. The Fund Costs that are specific to a series of securities are allocated to that series. These amounts are paid out of the assets attributed to each series of securities of the Fund, which reduces the return you may receive.

Fees and expenses payable to or in connection with the Independent Review Committee ("IRC") are allocated to the fund and series to which they apply in a manner that, in the Manager's view, is considered fair and reasonable. For the purpose of allocating IRC costs across the Funds, the Manager distinguishes between two categories of Funds: Funds that are structured as fund of funds and Funds that hold direct investments. The Manager has determined that, based on the complexity of the issues to be reviewed by the IRC for the Funds in each category, it is appropriate for the Funds that are structured as fund of funds to be allocated a lesser proportion of IRC costs than Funds that hold direct investments. The Manager first attributes IRC costs to each such category of Funds, and then allocates such costs equally between the Funds in each category. The amounts of these charges are disclosed in the line item "Independent review committee fees" in the Fund's Statements of Comprehensive Income (Loss).

<sup>(1)</sup> This information is provided as at December 31 of the period shown, except for the most recent semi-annual period, which is at June 30, 2024.

<sup>(2)</sup> Management expense ratio is based on total expenses (excluding broker commissions and other portfolio transaction costs) including the Fund's allocated percentage of Fund-on-Funds' expenses for the stated period and is expressed as an annualized percentage of daily average Net Asset Value during the period.

<sup>(3)</sup> The trading expense ratio represents total commissions and other portfolio transaction costs expressed as an annualized percentage of daily average Net Asset Value during the period.

<sup>(4)</sup> The Fund's portfolio turnover ratio indicates how actively the Fund's portfolio manager manages its portfolio investments. A portfolio turnover ratio of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the year. The higher a Fund's portfolio turnover ratio in a year, the greater the trading costs payable by the Fund in the year, and the greater the chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a high portfolio turnover rate and the performance of the Fund.

## Management Fees

The maximum annual management fee paid by the Fund is a percentage of the average daily net asset value of each series of securities of the Fund exclusive of any applicable taxes and operating expenses, which is accrued daily and is paid to the Manager monthly in arrears. Management fees pay for portfolio and investment advisory services, oversight of any service providers, marketing and promotional activities, arranging for the distribution and sale of securities of the Fund, general administration of Fund operations and sales and trailing commissions paid to dealers.

The percentages and major services paid for out of the management fees are set out below:

	Maximum Annual Management Fee Rate (%)	As a Percentage of Management Fees	
		Dealer Compensation (%) <sup>(*)</sup>	General Administration, Investment Advice and Profit (%)
Series A Securities	1.50	59	41
Series T5 Securities	1.50	58	42
Series P Securities	0.90	-	-
Series C Securities	1.45	61	39
Series F Securities	0.50	-	100
Series FC Securities	0.45	-	100
Series F5 Securities	0.50	-	100
Series I Securities <sup>(†)</sup>	-	-	100
Series O Securities <sup>(‡)</sup>	0.45	-	100

(\*) Includes sales and trailing commissions.

(†) Series O management fees are not paid by the Fund. Series O investors pay management fees directly to the Manager.

(‡) Series I management fees are not paid by the Fund. Series I investors negotiate management fees and pay directly to the Manager.

## Past Performance

The performance information shown assumes that all distributions made by the Fund in the periods shown were reinvested in additional securities of the Fund. The performance information does not take into account sales, redemption, distribution, other optional charges or income tax payable by any securityholder that would have reduced returns or performance. How the Fund has performed in the past does not necessarily indicate how it will perform in the future.

## Year-by-Year Returns

The following bar chart shows the Fund's annual performance for the period shown. The chart shows, in percentage terms, how much an investment made on the first day of each financial year would have grown or decreased by the last day of each period. Performance for Series P is not reported in the chart because it is a new series not yet available for sale.

## Forward-Looking Statements

This management report of fund performance may contain forward-looking statements about the Fund, including its strategies, results of operations, performance and condition. Forward-looking statements include statements that are predictive in nature, or that depend upon or refer to future events or conditions. They are based on current beliefs, expectations and projections about future events and are inherently subject to, among other things, risks, uncertainties and assumptions about the Fund and various economic factors. Many factors could cause the Fund's actual results, performance or achievements to be materially different from any future results, performance or achievements that may be expressed or implied by such forward-looking statements. These factors could include, among other things, general economic, political and market factors, including interest and foreign exchange rates, business competition, technological changes, changes in government regulations or in tax laws and pandemics. Although the forward-looking statements contained in this report are based upon what management currently believes to be reasonable assumptions, the Manager cannot assure current or prospective investors that actual results, performance or achievements will be consistent with these forward-looking statements. The words "may", "could", "would", "should", "believe", "plan", "anticipate", "expect", "intend", "forecast", "objective", and similar expressions are intended to identify forward-looking statements. The Manager does not undertake any obligation to update or revise any forward-looking statements to reflect events or circumstances after the date of this document or to reflect new information or the occurrence of unanticipated events, except as required by law.
